Picnic Area, Play Ground, Walking Trail, and Gift Shop.

Descriptions of SS CSOs Aligned With Heritage Farm Museum

	the state, explain the heritage of the fair or festival and its significance to the preservation of West Virginia history.
9th Grade	
SS.O.09.03.04	identify the causal relationship of economic changes and their effects on the job market (e.g., supply and demand, technology, industrialization).
SS.O.09.04.03	explain how the location of world resources influenced economic development and the global economy.
SS.O.09.04.04	evaluate the effect of geographic features, including climate, upon the environment.
SS.O.09.05.18	describe the Agricultural and Industrial revolutions and decide their impact on the evolution of society.
10th Grade	
SS.O.10.03.01	determine the relationship between the law of supply/demand and production/consumption.
SS.O.10.03.04	critique the cause and effect relationship between the labor movement and industrialization in the United States.
SS.O.10.04.07	Analyze the characteristics, traits, religions, traditions and contributions of Native Americans, African Americans, Hispanics and all immigrants such as Germans, Italians, and Irish to the new American culture.
SS.O.10.04.08	evaluate the geographic differences that contributed to economic development and regionalism prior to the Civil War.
SS.O.10.04.09	analyze the impact of the environment, including the location of natural resources, on immigration and settlement patterns.
SS.O.10.04.11	evaluate the human impact on the environment throughout the American experience.
SS.O.10.05.16	compare and contrast the political, economic and social conditions in the United States before and after the Civil War.
SS.O.10.05.18	outline the effects of technological change on the United States (e.g., agriculture, transportation, industry, labor, society).
11th Grade	
SS.O.11.03.01	Evaluate the lifestyle changes brought on by industrialization, technology and transportation (e.g., debate industrialization vs. maintaining natural environment and the implications for tourism, mass production and mass consumption).
SS.O.11.04.02	analyze the significance of the physical and human geographic characteristics and location of places where events occurred in each period of study. (e.g., Why did an event occur where it did? Could the same event have occurred in another place or location?) and explain their analysis.
SS.O.11.04.03	correlate the importance of geographic factors with social, political, economic and technological change (e.g., point out how West Virginia's geography has influenced laws that impact business, including tourism, as well as the quality of life in the state).
SS.O.11.04.05	analyze and assess the impact of human decision-making and technology on the environment.
SS.O.11.04.08	examine and assess the role that geographic factors/features play in the development of political, economic and social conditions and/or climates

Descriptions of SS CSOs Aligned With Heritage Farm Museum

SS.O.11.05.14	describe the effect of technology and its impact in creating a global community (e.g., computers, space exploration, medicine).
SS.O.11.05.16	evaluate the role of technology in communications, transportation, information processing, weapons development and other areas as it contributes to or helps resolve conflicts.

12th Grade	
SS.C.O.12.04.11	evaluate the changing view of resource use on a local/global scale.
SS.C.O.12.04.12	point out the potential impacts of environmental change. (e.g. Changing areas of food production, shrinking human habitats, dense settlements)

12th Grade	Economics (Elective)
SS.E.O.12.03.01	explain and give examples showing how scarcity of goods and services forces people to make choices about needs and wants.
SS.E.O.12.03.03	explain the role supply and demand, prices, incentives and profits play in determining what is produced and distributed in a free enterprise system.

12th Grade	Geography (Elective)
SS.G.O.12.04.01	acquire geographic information and classify it using the six essential elements of geography: the world in spatial terms, places and regions, physical systems, human systems, environment and society, and uses of geography.
SS.G.O.12.04.04	explain how physical and human processes shape places and regions.
SS.G.O.12.04.05	identify human and physical changes in places and regions, and explain the factors that contribute to those changes.
SS.G.O.12.04.07	identify the world's physical and cultural regions, the criteria used to define them, the political and historical characteristics of the regions, and analyze the interdependence of regions in regard to trade, services, migration, and cultural values.
SS.G.O.12.04.13	analyze the role of physical and human geographic factors on economic patterns.
SS.G.O.12.04.15	discuss societal impacts on the environment and the affects of environment on societies.
SS.G.O.12.04.18	analyze the impact of technology on environments and societies over time and space.
