Avengers: Infinity War is a 2018 American superhero film based on the Marvel Comics superhero team the Avengers. Produced by Marvel Studios and distributed by Walt Disney Studios Motion Pictures, it is the sequel to *The Avengers* (2012) and *Avengers: Age of Ultron* (2015), and the 19th film in the Marvel Cinematic Universe (MCU). Directed by Anthony and Joe Russo and written by Christopher Markus and Stephen McFeely, the film features an ensemble cast including Robert Downey Jr., Chris Hemsworth, Mark Ruffalo, Chris Evans, Scarlett Johansson, Benedict Cumberbatch, Don Cheadle, Tom Holland, Chadwick Boseman, Paul Bettany, Elizabeth Olsen, Anthony Mackie, Sebastian Stan, Danai Gurira, Letitia Wright, Dave Bautista, Zoe Saldana, Josh Brolin, and Chris Pratt. In the film, the Avengers and the Guardians of the Galaxy attempt to stop Thanos from collecting the six powerful Infinity Stones as part of his quest to kill half of all life in the universe.

The film was announced in October 2014 as *Avengers: Infinity War – Part 1*. The Russo brothers came on board to direct in April 2015, and a month later, Markus and McFeely signed on to write the script for the film, which draws inspiration from Jim Starlin's 1991 comic book *The Infinity Gauntlet* and Jonathan Hickman's 2013 comic book *Infinity*. In 2016, Marvel shortened the title to *Avengers: Infinity War*. Filming began in January 2017 at Pinewood Atlanta Studios in Fayette County, Georgia, with a large cast consisting mostly of actors reprising their roles from previous MCU films, including Brolin as Thanos. The production lasted until July 2017, shooting back-to-back with a direct sequel, *Avengers: Endgame* (2019). Additional filming took place in Scotland, the Downtown Atlanta area, and New York City. With an estimated budget of \$325–400 million, the film is one of the most expensive films ever made.

Avengers: Infinity War premiered at the Dolby Theatre in Hollywood, Los Angeles, on April 23, 2018, and was released in the United States on April 27 as part of Phase Three of the MCU. The film received positive reviews from critics, with praise for Brolin's performance and the Russo brothers' direction, as well as the visual effects, action sequences, dark tone, and musical score. It was a major box-office success, becoming the fourth film and the first superhero film to gross over \$2 billion worldwide, breaking numerous box office records, and becoming the highest-grossing film of 2018 and the fourth-highest-grossing film at the time of its release both worldwide and in the United States and Canada. It received a nomination for Best Visual Effects at the 91st Academy Awards, among numerous other accolades. The sequel, *Avengers: Endgame*, was released in April 2019.

Thanos () is a supervillain appearing in American comic books published by Marvel Comics. Created by writer-artist Jim Starlin, the character first appeared in *The Invincible Iron Man* #55 (cover date February 1973). An Eternal–Deviant warlord from the moon Titan, Thanos is regarded as one of the most powerful beings in the Marvel Universe. Due to his genocidal tendencies, he has clashed with many heroes including the Avengers and the Guardians of the Galaxy.

In creating Thanos, Starlin drew inspiration from Jack Kirby's *New Gods* series for DC Comics, particularly the character of Darkseid. Thanos is usually portrayed as a villain, although many stories depict him as

believing his actions to be justified. Perhaps the character's best-known storyline is The Infinity Gauntlet (1991), the culmination of several story arcs that see him gather the six Infinity Gems and use them to kill half of the universe's population, including many of its heroes, to woo Mistress Death, the living embodiment of death in the Marvel Universe. Although these events were later undone, the storyline has remained one of the most popular published by Marvel.

Debuting in the Bronze Age of comic books, the character has appeared in more than five decades of Marvel publications, as well as many media adaptations, including animated television series and video games.

In the Marvel Cinematic Universe, the character was first played by Damion Poitier in the film *The Avengers* (2012) and then by Josh Brolin in *Guardians of the Galaxy* (2014), *Avengers: Age of Ultron* (2015), *Avengers: Infinity War* (2018), *Avengers: Endgame* (2019), and the first season of the animated series *What If...?* (2021).

The Dillinger Escape Plan is an American metalcore band. The band was formed in 1997 in Morris Plains, New Jersey by guitarist Ben Weinman, bassist Adam Doll, vocalist Dimitri Minakakis, and drummer Chris Pennie. The band's use of dissonance, odd time signatures, polyrhythms and unconventional drum patterns became a staple of their sound, although later albums incorporated more melody, and influences from a range of genres. The band's lineup shifted numerous times throughout its existence; by the time the group dissolved, Weinman was the only remaining founding member. The final lineup also included longtime members Liam Wilson on bass, Greg Puciato as lead vocalist, and Billy Rymer on drums, alongside then-newcomer Kevin Antreassian on rhythm guitar.

The Dillinger Escape Plan achieved critical success, releasing six studio albums during its existence, the first being *Calculating Infinity* (1999), which has been noted by critics as a landmark release in hardcore punk and heavy metal music. The album has achieved a cult status selling well over 100,000 copies, which made the band the highest-selling artist on Relapse at the time. The Dillinger Escape Plan has won various nominations from award shows and publications such as the PLUG Independent Music Awards, Kerrang!, Revolver and Metal Hammer. In 2017, the band won an AIM Award for "Outstanding Contribution to Music".

Prior to the release of their final album, *Dissociation* (2016), The Dillinger Escape Plan announced that they would be disbanding at the end of the album's touring cycle. Their final shows took place at Terminal 5 in New York City from December 27–29, 2017. In December 2023, the band announced that they were reuniting for three shows in New York in June 2024 with original frontman Dimitri Minakakis to celebrate the 25th anniversary of *Calculating Infinity*.

Music of the Spheres World Tour

The Music of the Spheres World Tour is the ongoing eighth concert tour undertaken by British rock band Coldplay. It is being staged to promote their ninth and tenth studio albums, Music of the Spheres (2021) and Moon Music (2024), respectively. The tour began at San José's Estadio Nacional de Costa Rica on 18 March 2022 and is scheduled to end at London's Wembley Stadium on 8 September 2025. It marked the band's return to live performances following the COVID-19 pandemic, spanning 225 nights in 80 cities across 43 countries. They had not toured their previous record, Everyday Life (2019), because of environmental concerns. A team of experts was hired to develop new strategies and reduce CO2 emissions over the following two years.

Coldplay announced the first shows on 14 October 2021, a day before Music of the Spheres was released. Similar to the Mylo Xyloto Tour (2011–2012), production elements involved pyrotechnics, confetti and lasers. However, adaptations were done to cut their carbon footprint. Other ideas included crafting the first rechargeable mobile show battery in the world with BMW and planting a tree for every ticket sold. Emissions fell by 59% in comparison to the group's previous tour, leading Time to rank Coldplay among the most influential climate action leaders. Pollstar stated that they have ushered in "a new era of sustainable touring".

With a global cultural impact, the Music of the Spheres World Tour grossed \$1.38 billion in revenue from 12.3 million tickets, becoming the most-attended tour of all time and the first by a band to collect \$1 billion. Coldplay also broke numerous venue records during the tour. The shows received widespread acclaim from music critics, who praised the group's stage presence, musicianship, versatility and joyfulness, as well as the show's production value. A concert film, Music of the Spheres: Live at River Plate, was released in cinemas around the world in 2023, featuring their performances in Buenos Aires.
