Clickbait

November 2013). "Upworthy: I Thought This Website Was Crazy, but What Happened Next Changed Everything";. The Atlantic. Archived from the original on 15

Clickbait (also known as link bait or linkbait) is a text or a thumbnail link that is designed to attract attention and to entice users to follow ("click") that link and view, read, stream or listen to the linked piece of online content, being typically deceptive, sensationalized, or otherwise misleading. A "teaser" aims to exploit the "curiosity gap", providing just enough information to make readers of news websites curious, but not enough to satisfy their curiosity without clicking through to the linked content. Clickbait headlines often add an element of dishonesty, using enticements that do not accurately reflect the content being delivered.

The -bait suffix makes an analogy with fishing, where a hook is disguised by an enticement (bait), presenting the impression to the fish that it is a desirable thing to swallow.

Before the Internet, a marketing practice known as bait-and-switch used similar dishonest methods to hook customers. To an extreme degree, like bait-and-switch, clickbait is a form of fraud. (Click fraud, however, is a separate form of online misrepresentation which uses a more extreme disconnect between what is being presented on the front side of the link versus what is on the click-through side of the link, also encompassing malicious code.) The term clickbait does not encompass all cases where the user arrives at a destination that is not anticipated from the link that is clicked.

Next Ukrainian presidential election

Ukrainian census "Zelensky's First Term Is Almost Up. No One's Sure What Happens Next";. The New York Times. 5 October 2023. Retrieved 6 October 2023. Yuliia

Presidential elections were scheduled to be held in Ukraine in March or April 2024. However, as martial law has been in effect since 24 February 2022 in response to the Russian invasion of Ukraine, no elections were held because Ukrainian law does not allow presidential elections to be held when martial law is in effect. Martial law has been extended in 90-day intervals since the full-scale invasion with parliament's approval, and has most recently (as of July 2025) been extended for the 16th time until 5 November 2025.

Incumbent President Volodymyr Zelenskyy has not confirmed if he will seek reelection. When asked in a January 2025 interview, he said that seeking a second term was not his current goal or focus, but his decision would depend on the outcome of the war.
