B

B ? : Gothic letter berena, which derives from Greek Beta IPA-specific symbols related to B: ? ? ? ? B with diacritics: ? ? ? ? ? ? ? ? ? ?

?B?, or ?b?, is the second letter of the Latin alphabet, used in the modern English alphabet, the alphabets of other western European languages and others worldwide. Its name in English is bee (pronounced), plural bees.

It represents the voiced bilabial stop in many languages, including English. In some other languages, it is used to represent other bilabial consonants.

A/B testing (also known as bucket testing, split-run testing or split testing) is a user-experience research method. A/B tests consist of a randomized experiment that usually involves two variants (A and B), although the concept can be also extended to multiple variants of the same variable. It includes application of statistical hypothesis testing or "two-sample hypothesis testing" as used in the field of statistics. A/B testing is employed to compare multiple versions of a single variable, for example by testing a subject's response to variant A against variant B, and to determine which of the variants is more effective.

Multivariate testing or multinomial testing is similar to A/B testing but may test more than two versions at the same time or use more controls. Simple A/B tests are not valid for observational, quasi-experimental or other non-experimental situations—commonplace with survey data, offline data, and other, more complex phenomena.

The A-side and B-side are the two sides of vinyl records and cassettes, and the terms have often been printed on the labels of two-sided music recordings. The A-side of a single usually features a recording that its artist, producer, or record company intends to be the initial focus of promotional efforts and radio airplay, with the aim of it becoming a hit record. The B-side (or "flip-side") is a secondary recording that typically receives less attention, although some B-sides have been as successful as, or more so than, their A-sides.

Use of this language has largely declined in the 21st century as the music industry has transitioned away from analog recordings towards digital formats without physical sides, such as downloads and streaming. Nevertheless, some artists and labels continue to employ the terms A-side and B-side metaphorically to

describe the type of content a particular release features, with B-side sometimes representing a "bonus" track or other material.

Riley B. King (September 16, 1925 – May 14, 2015), known professionally as B. B. King, was an American blues guitarist, singer, songwriter, and record producer. He introduced a sophisticated style of soloing based on fluid string bending, shimmering vibrato, and staccato picking that influenced many later electric guitar blues players. AllMusic recognized King as "the single most important electric guitarist of the last half of the 20th century".

He was inducted into the Rock and Roll Hall of Fame in 1987 and is one of the most influential blues musicians of all time, earning the nickname "The King of the Blues", and is referred to as one of the "Three Kings of the Blues Guitar" (along with Albert King and Freddie King, none of whom are related). King performed tirelessly throughout his musical career, appearing on average at more than 200 concerts a year into his 70s. In 1956 alone, he appeared at 342 shows.

Born and raised in the Mississippi Delta, he was attracted to music and taught himself to play guitar beginning his career in juke joints and on local radio. King later lived and performed in Memphis and Chicago. As his fame grew, he toured the world extensively.

Abraham Isaac Quintanilla III (born December 13, 1963), known professionally as A.B. Quintanilla III or A.B. Quintanilla, is an American record producer, songwriter and musician. Called the "King of Kumbia" (or "King of Cumbia") due to his influence and impact on the cumbia music genre, he is the older brother of singer Selena, known as the "Queen of Tejano Music", having produced and written many of her hit songs throughout her career, is the creator and founder of the bands Kumbia Kings and Kumbia All Starz, also having produced and written their hit songs as well as performing as a member of both, and has contributed, produced and written many songs for other artists.

Along with Selena, his other sister Suzette, and his father Abraham, he became a member of Los Dinos in 1980. As a member of Los Dinos, A.B. played bass guitar, produced, and wrote songs for Selena that became successful singles such as "Como la Flor", "Amor Prohibido" and "No Me Queda Más". After Selena's death, he would create the bands Kumbia Kings and Kumbia All Starz.
