When Calls the Heart is a Western drama television series inspired by Janette Oke's book of the same name from her Canadian West series and created by Michael Landon Jr. and Brian Bird. The series began airing on the Hallmark Channel in the United States on January 11, 2014, and on Super Channel in Canada on April 16, 2014.

The series originated from a two-hour television movie pilot in October 2013, starring Poppy Drayton as young teacher Elizabeth Thatcher and Stephen Amell as North-West Mounted Police officer Wynn Delaney. In the television series, Erin Krakow plays the lead role alongside an ensemble cast.

On March 21, 2018, Hallmark renewed the series for a sixth season. The season premiered with a two-hour Christmas special that was broadcast as part of Hallmark's Countdown to Christmas event, and was to continue for a 10-episode run starting in February 2019. However, due to the 2019 college admissions bribery scandal involving Lori Loughlin and her subsequent removal from all Hallmark properties, the season was put on a "retooling" hiatus and resumed in May to conclude in June, with Loughlin's scenes edited out.

On February 22, 2023, ahead of the tenth season premiere, the series was renewed for an eleventh season, which premiered on April 7, 2024. On May 10, 2024, the series was renewed for season twelve, which began production in July 2024.

Canada is a country in North America. Its ten provinces and three territories extend from the Atlantic Ocean to the Pacific Ocean and northward into the Arctic Ocean, making it the second-largest country by total area, with the longest coastline of any country. Its border with the United States is the longest international land border. The country is characterized by a wide range of both meteorologic and geological regions. With a population of over 41 million, it has widely varying population densities, with the majority residing in its urban areas and large areas being sparsely populated. Canada's capital is Ottawa and its three largest metropolitan areas are Toronto, Montreal, and Vancouver.

Indigenous peoples have continuously inhabited what is now Canada for thousands of years. Beginning in the 16th century, British and French expeditions explored and later settled along the Atlantic coast. As a consequence of various armed conflicts, France ceded nearly all of its colonies in North America in 1763. In 1867, with the union of three British North American colonies through Confederation, Canada was formed as a federal dominion of four provinces. This began an accretion of provinces and territories resulting in the displacement of Indigenous populations, and a process of increasing autonomy from the United Kingdom. This increased sovereignty was highlighted by the Statute of Westminster, 1931, and culminated in the Canada Act 1982, which severed the vestiges of legal dependence on the Parliament of the United Kingdom.

Canada is a parliamentary democracy and a constitutional monarchy in the Westminster tradition. The country's head of government is the prime minister, who holds office by virtue of their ability to command the confidence of the elected House of Commons and is appointed by the governor general, representing the monarch of Canada, the ceremonial head of state. The country is a Commonwealth realm and is officially bilingual (English and French) in the federal jurisdiction. It is very highly ranked in international measurements of government transparency, quality of life, economic competitiveness, innovation, education and human rights. It is one of the world's most ethnically diverse and multicultural nations, the product of large-scale immigration. Canada's long and complex relationship with the United States has had a significant impact on its history, economy, and culture.

A developed country, Canada has a high nominal per capita income globally and its advanced economy ranks among the largest in the world by nominal GDP, relying chiefly upon its abundant natural resources and well-developed international trade networks. Recognized as a middle power, Canada's support for multilateralism and internationalism has been closely related to its foreign relations policies of peacekeeping and aid for developing countries. Canada promotes its domestically shared values through participation in multiple international organizations and forums.

Heart of Darkness is an 1899 novella by Polish-British novelist Joseph Conrad in which the sailor Charles Marlow tells his listeners the story of his assignment as steamer captain for a Belgian company in the African interior. The novel is widely regarded as a critique of European colonial rule in Africa, whilst also examining the themes of power dynamics and morality. Although Conrad does not name the river on which most of the narrative takes place, at the time of writing, the Congo Free State—the location of the large and economically important Congo River—was a private colony of Belgium's King Leopold II. Marlow is given an assignment to find Kurtz, an ivory trader working on a trading station far up the river, who has "gone native" and is the object of Marlow's expedition.

Central to Conrad's work is the idea that there is little difference between "civilised people" and "savages". Heart of Darkness implicitly comments on imperialism and racism. The novella's setting provides the frame for Marlow's story of his fascination for the prolific ivory trader Kurtz. Conrad draws parallels between London ("the greatest town on earth") and Africa as places of darkness.

Originally issued as a three-part serial story in Blackwood's Magazine to celebrate the 1000th edition of the magazine, Heart of Darkness has been widely republished and translated in many languages. It provided the inspiration for Francis Ford Coppola's 1979 film Apocalypse Now. In 1998, the Modern Library ranked Heart of Darkness 67th on their list of the 100 best novels in English of the 20th century.
