

Watercolor

Watercolor painting

Watercolor (American English) or watercolour (Commonwealth English; see spelling differences), also aquarelle (French: [akwaʁɛl]; from Italian diminutive

Watercolor (American English) or watercolour (Commonwealth English; see spelling differences), also aquarelle (French: [akwaʁɛl]; from Italian diminutive of Latin aqua 'water'), is a painting method in which the paints are made of pigments suspended in a water-based solution. Watercolor refers to both the medium and the resulting artwork. Aquarelles painted with water-soluble colored ink instead of modern water colors are called aquarellum atramento (Latin for "aquarelle made with ink") by experts. However, this term has now tended to pass out of use.

The conventional and most common support—material to which the paint is applied—for watercolor paintings is watercolor paper. Other supports or substrates include stone, ivory, silk, reed, papyrus, bark papers, plastics, vellum, leather, fabric, wood, and watercolor canvas (coated with a gesso that is specially formulated for use with watercolors). Watercolor paper is often made entirely or partially with cotton. This gives the surface the appropriate texture and minimizes distortion when wet. Watercolor papers are usually cold-pressed papers that provide better texture and appearance. Transparency is the main characteristic of watercolors. "It consists of a mixture of pigments, binders such as gum arabic and humectants such as glycerin, which together with other components, allow the color pigment to join and form the paint paste, which we know as watercolor. With regard to the colors, the quality of the pigments and their degree of concentration, it is what determines how good the watercolor is and also its price. A paint that has a high concentration of pigment, professional type, allows us to use it with a large amount of water without losing the intensity of color." Watercolors can also be made opaque by adding Chinese white. This is not a method to be used in "true watercolor" (traditional).

Watercolor paint is an ancient form of painting, if not the most ancient form of art itself. In East Asia, watercolor painting with inks is referred to as brush painting or scroll painting. In Chinese, Korean and Japanese painting it has been the dominant medium, often in monochrome black or browns, often using inkstick or other pigments. India, Ethiopia and other countries have long watercolor painting traditions as well.

Many Western artists, especially in the early 19th century, used watercolor primarily as a sketching tool in preparation for the "finished" work in oil or engraving. Until the end of the eighteenth century, traditional watercolors were known as 'tinted drawings'.

Lana Del Rey

October 20, 2021. On January 21, 2022, Del Rey premiered a song titled "Watercolor Eyes" on an episode of Euphoria. Del Rey confirmed in 2022 she had been

Elizabeth Woolridge Grant (born June 21, 1985), known professionally as Lana Del Rey, is an American singer-songwriter. Her music is noted for its melancholic exploration of glamor and romance, with frequent references to pop culture and 1950s–1970s Americana. She is the recipient of various accolades, including an MTV Video Music Award, three MTV Europe Music Awards, two Brit Awards, two Billboard Women in Music awards and a Satellite Award, in addition to nominations for eleven Grammy Awards and a Golden Globe Award. Variety honored her at their Hitmakers Awards for being "one of the most influential singer-songwriters of the 21st century". In 2023, Rolling Stone placed Del Rey on their list of the "200 Greatest Singers of All Time", while their sister publication Rolling Stone UK named her as the "Greatest American Songwriter of the 21st century".

Raised in upstate New York, Del Rey moved to New York City in 2005 to pursue a music career. Del Rey's breakthrough came in 2011 with the viral success of her single "Video Games", leading to a recording contract with Polydor and Interscope. She achieved critical and commercial success with her second album, Born to Die (2012), which featured a moody, hip hop-inflected sound and spawned the sleeper hit "Summertime Sadness". The album topped numerous national charts around the world, and in 2023 became the second album by a woman to spend more than 500 weeks on the US Billboard 200.

Her critically acclaimed sixth album Norman Fucking Rockwell! (2019) was nominated for Album of the Year at the 62nd Annual Grammy Awards and listed as one of the "500 Greatest Albums of All Time" by Rolling Stone. Del Rey's ninth studio album Did You Know That There's a Tunnel Under Ocean Blvd was released in 2023, supported by the critically acclaimed single "A&W", which was named one of the "500 Greatest Songs of All Time" by Rolling Stone. Later that year, she released the Billboard Global 200 top-20 hit "Say Yes to Heaven".

Del Rey has collaborated on soundtracks for visual media; in 2013, she wrote and starred in the critically acclaimed musical short film Tropicana and released "Young and Beautiful" for the romantic drama The Great Gatsby, which was highly praised by critics and received Grammy Award and Critics' Choice Award

nominations. In 2014, she recorded "Once Upon a Dream" for the dark fantasy adventure film *Maleficent* and the titular theme song for the biopic *Big Eyes*, which was nominated for a Golden Globe Award. Del Rey also recorded the collaboration "Don't Call Me Angel" for the action comedy *Charlie's Angels* (2019). In 2020, Del Rey published the poetry and photography collection *Violet Bent Backwards over the Grass*.

Gouache

Gouache (/ˈuː???, ˈw??/?; French: [ˈwa?]), body color, or opaque watercolor is a water-medium paint consisting of natural pigment, water, a binding agent

Gouache (; French: [ˈwa?]), body color, or opaque watercolor is a water-medium paint consisting of natural pigment, water, a binding agent (usually gum arabic or dextrin), and sometimes additional inert material. Gouache is designed to be opaque. Gouache has a long history, having been used for at least twelve centuries. It is used most consistently by commercial artists for posters, illustrations, comics, and other design work.

Gouache is similar to watercolor in that it can be rewetted and dried to a matte finish, and the paint can become infused into its paper support. It is similar to acrylic or oil paints in that it is normally used in an opaque painting style and it can form a superficial layer. Many manufacturers of watercolor paints also produce gouache, and the two can easily be used together.

Marilyn Manson

stated in a 2004 interview with i-D magazine to have begun his career as a watercolor painter in 1999 when he made five-minute concept pieces and sold them

Brian Hugh Warner (born January 5, 1969), known professionally as Marilyn Manson, is an American rock musician. He is the lead singer and the only original member remaining of the same-titled band he founded in 1989. The band members initially created their stage names by combining the first name of an American female sex symbol with the last name of a male serial killer. The singer derived his name from the actress Marilyn Monroe and cult leader Charles Manson.

In the 1990s, the band released the albums *Portrait of an American Family* (1994), *Antichrist Superstar* (1996) and *Mechanical Animals* (1998), which included hit singles such as "The Beautiful People", "Tourniquet", "The Dope Show" and "Rock Is Dead". The band's 2000 album *Holy Wood (In the Shadow of the Valley of Death)* is a direct response to mainstream media, who blamed Manson for supposedly influencing the perpetrators of the Columbine High School massacre. Three of the band's albums have been awarded platinum status and three more went gold, and they have had eight top-ten albums and two number-one albums on the *Billboard* 200. He has been ranked at No. 44 on the list of the "Top 100 Heavy Metal Vocalists" by *Hit Parader* and, along with his band, has been nominated for five Grammy Awards.

Manson is widely considered one of the most controversial figures in heavy metal. In addition to the Columbine tragedy, his lyrics have been criticized by American politicians and examined in congressional hearings, with several U.S. states creating legislation specifically banning the group from performing in state-operated venues. His paintings and films appeared as evidence in a murder trial, and he has been accused of inspiring several other murders and school shootings. Outside of music, he made his film debut as an actor in David Lynch's *Lost Highway* (1997), and has since appeared in a variety of minor roles and cameos. In 2002, his first art show, *The Golden Age of Grotesque*, was held at the Los Angeles Contemporary Exhibitions center.

In 2021, former partner Evan Rachel Wood accused Manson of psychological and sexual abuse, allegations which Manson denied. Other women followed with similar accusations, with five women suing him in civil court. One of these lawsuits was withdrawn after the accuser recanted her allegations and alleged Wood pressured her to accuse Manson. He sued Wood for defamation, but later dropped the lawsuit after substantial

portions of the suit were dismissed by Wood's anti-SLAPP motions, agreeing to pay her legal fees. A four-year criminal investigation of the abuse allegations by the Los Angeles County Sheriff's Department concluded in 2025, which resulted in no charges filed against Manson due to the expiration of the statute of limitations and a lack of evidence.

Watercolor paper

Watercolor paper (or watercolour paper) is paper or substrate onto which an artist applies watercolor paints, pigments, or dyes. Many types of paper are

Watercolor paper (or watercolour paper) is paper or substrate onto which an artist applies watercolor paints, pigments, or dyes. Many types of paper are manufactured specifically for watercolour painting. The paper may be made of wood pulp exclusively, or mixed with cotton fibers. Pure cotton watercolor paper is also used but it is more expensive than pulp-based paper. Some watercolourists prefer an acid-free medium.

Watercolor paper may be hot-pressed, cold-pressed, or rough. Paper traditionally comes in either 90, 140, or 300 lb weights. Prices range from affordable to more expensive and higher quality.

Watercolor illusion

The watercolor illusion, also referred to as the water-color effect, is an optical illusion in which a white area takes on a pale tint of a thin, bright

The watercolor illusion, also referred to as the water-color effect, is an optical illusion in which a white area takes on a pale tint of a thin, bright, intensely colored polygon surrounding it if the coloured polygon is itself surrounded by a thin, darker border (Figures 1 and 2). The inner and outer borders of watercolor illusion objects often are of complementary colours (Figure 2). The watercolor illusion is best when the inner and outer contours have chromaticities in opposite directions in color space. The most common complementary pair is orange and purple. The watercolor illusion is dependent on the combination of luminance and color contrast of the contour lines in order to have the color spreading effect occur.

Nausicaä of the Valley of the Wind (film)

art book for the film, The Art of Nausicaä of the Valley of the Wind: Watercolor Impressions
(????????????????????, *Jiata Kaze no Tani no Naushika Miyazaki*

Nausicaä of the Valley of the Wind is a 1984 Japanese animated post-apocalyptic fantasy film written and directed by Hayao Miyazaki, based on his 1982 manga Nausicaä of the Valley of the Wind. It was produced by Topcraft and distributed by Toei Company. Joe Hisaishi, in his first collaboration with Miyazaki, composed the score. The film stars the voices of Sumi Shimamoto, Gorô Naya, Yôji Matsuda, Yoshiko Sakakibara, and Iemasa Kayumi. Set in a post-nuclear futuristic world, it tells the story of Nausicaä (Shimamoto), the pacifist teenage princess of the Valley of the Wind who becomes embroiled in a struggle with Tolmekia, an empire that attempts to use an ancient weapon to eradicate a jungle populated by oversized, mutant insects.

Nausicaä of the Valley of the Wind was released in Japan on 11 March 1984. The film received critical acclaim, with praise being directed at the story, themes, characters and animation. It is commonly regarded as one of the greatest animated films, and was the second-highest-ranked animation in a poll conducted by Japan's Agency for Cultural Affairs in 2006. Though it was released before Studio Ghibli was founded, it is often considered a Ghibli work due to its themes, and is usually released as part of DVD and Blu-ray collections of Ghibli work.

A heavily edited version of the film created by Manson International, titled Warriors of the Wind, was released in the United States and other markets throughout the mid-to-late 1980s. The Manson cut was

derided by Miyazaki, and prompted Ghibli to establish a policy preventing future international licensors from editing its films for foreign release. It was eventually replaced in circulation by an uncut, redubbed version produced by Walt Disney Pictures in 2005.
