

7 Third Edition Test And Key

2025 ICC World Test Championship final

played between Australia and South Africa. South Africa won the match by 5 wickets to win the third edition of the ICC World Test Championship. This marked

The 2025 ICC World Test Championship final was a Test cricket match played at Lord's, London from 11 to 14 June to determine the winner of the 2023–2025 ICC World Test Championship. It was played between Australia and South Africa.

South Africa won the match by 5 wickets to win the third edition of the ICC World Test Championship. This marked South Africa's maiden win of the Championship. As winners, they received a cash prize of US\$3.6 million, while the Australian team received a cash prize of US\$2.1 million. This was also South Africa's first ICC title since 1998.

Rob Key

the 93 he scored in the third Test, earned him recognition as one of the five Wisden Cricketers of the Year. Key's last Test matches came during England's

Robert William Trevor Key (born 12 May 1979) is an English former cricketer and cricket commentator who played international cricket in all formats for England and domestic cricket for Kent County Cricket Club. He is the current managing director of the England Cricket team.

A right-handed opening batsman, Key made appearances at age-group level for Kent from the age of eleven, moving up until he made his first-class debut in 1998. He made eight first-class and four List A appearances for England's youth sides, and was a member of the side that won the 1998 Under-19 Cricket World Cup. Following a season of heavy run-scoring, Key was called up to the England A side in 1999.

Following an injury to Marcus Trescothick, Key made his Test debut against India in 2002. He toured Australia during the 2002–03 Ashes series, where he justified his selection ahead of a more experienced player. His One Day International debut came in 2003, against Zimbabwe, however he was dropped from both squads shortly after. Injury to Mark Butcher allowed Key back into the England side for the series against the West Indies in 2004. He scored his maiden Test hundred in the first match of the series, which later became his maiden first-class double century as he scored 221. This performance, coupled with the 93 he scored in the third Test, earned him recognition as one of the five Wisden Cricketers of the Year. Key's last Test matches came during England's tour of South Africa during 2004–05, where he managed to score 152 runs without being consistent, and despite a one-match return during the 2009 ICC World Twenty20, he has remained on the fringes of selection.

Key became Kent captain following the 2006 English cricket season, following David Fulton's resignation. He led Kent to a County Championship 2nd Division Championship title in 2010, two Twenty20 Cup Finals Day appearances and a Friends Provident Trophy final. He resigned as Kent captain following the 2012 English cricket season and James Tredwell became club captain. Key only had one season off as captain as Tredwell then himself resigned and Key was named as his replacement, captaining the county for another two years until the end of the 2015 season.

In April 2016, Key announced his retirement from all forms of cricket. Key was a regular commentator on Sky Sports' TV coverage of county cricket while still a player at Kent, and after retiring he worked as a pundit and commentator for a variety of media outlets, including GTV and SEN. On 17 April 2022, he was

appointed as the managing director of the England men's cricket team, stepping down from all of his media commitments.

3DMark

versions as each test is based on a specific version of the DirectX API. 3DMark 11 and earlier versions, being no longer suitable to test modern hardware

3DMark is a computer benchmarking tool created and developed by UL (formerly Futuremark), to determine the performance of a computer's 3D graphic rendering and CPU workload processing capabilities. Running 3DMark produces a 3DMark score, with higher numbers indicating better performance. The 3DMark measurement unit is intended to give a normalized means for comparing different PC hardware configurations (mostly graphics processing units and central processing units), which proponents such as gamers and overclocking enthusiasts assert is indicative of end-user performance capabilities.

Many versions of 3DMark have been released since 1998. Scores cannot be compared across versions as each test is based on a specific version of the DirectX API. 3DMark 11 and earlier versions, being no longer suitable to test modern hardware, have been made available as freeware by providing keys to unlock the full version on the UL website.

India national cricket team

Championship finals, finishing runners-up in 2021 and 2023, while finishing third in 2025. Test rivalries include the Border–Gavaskar Trophy with Australia, Freedom

The India men's national cricket team, also known as Men in Blue, represents India in international cricket. It is governed by the Board of Control for Cricket in India (BCCI) and is a full member nation of the International Cricket Council with Test, ODI and T20I status. India are the current holders of the T20 World Cup, the Champions Trophy and the Asia Cup.

The team has played 594 Test matches, winning 183, losing 186, with 224 draws and 1 tie. As of August 2025, India is ranked fourth in the ICC Men's Test Team Rankings with 107 rating points. India have played in two of the three World Test Championship finals, finishing runners-up in 2021 and 2023, while finishing third in 2025.

Test rivalries include the Border–Gavaskar Trophy with Australia, Freedom Trophy with South Africa, Anderson–Tendulkar Trophy with England.

The team has played 1,066 ODI matches, winning 567, losing 445, tying 10 and with 44 ending in a no-result. As of August 2025, India is ranked first in the ICC Men's ODI Team Rankings with 124 rating points. India have appeared in the World Cup final four times in 1983, 2003, 2011, and 2023 and have won the World Cup twice in 1983 and 2011. It was the second team, after the West Indies, to win the World Cup, and the first to win the competition on home soil after winning it in 2011. India have also won the Champions Trophy three times, in 2002, 2013 and 2025. In addition to that, they have also won the ODI Asia Cup seven times, in 1984, 1988, 1990–91, 1995, 2010, 2018, and 2023.

The team has played 247 Twenty20 International matches, winning 164, losing 71, tying 6 and with 6 ending in a no-result. As of August 2025, India is ranked first in the ICC Men's T20I Team Rankings with 271 rating points. India have won the T20 World Cup twice in 2007 and 2024. They have also won the T20 Asia Cup in 2016 and have secured a gold medal at the Asian Games in 2022.

Command & Conquer: Red Alert 3

test. From July 24, people who registered their beta key started to receive an e-mail stating that the participants would start receiving their Key and

Command & Conquer: Red Alert 3 is a real-time strategy video game developed by EA Los Angeles and published by Electronic Arts. It was released in October 2008 in the United States and Europe for Microsoft Windows. An Xbox 360 version was released on November 11. In addition, Command & Conquer: Red Alert 3 – Ultimate Edition, the PlayStation 3 version which contains additional material was released on March 23, 2009, along with the OS X version by TransGaming. The game is a continuation of the Red Alert games within the Command & Conquer series. Command & Conquer: Red Alert 3 – Uprising, a stand-alone expansion pack, was released for Microsoft Windows in March 2009. It was offered via digital distribution.

Like the previous entries in the Red Alert series, the game is set in an alternate reality from World War II, in which the Western Allies fight the Soviet Union. In Red Alert 3 the Soviet leadership, facing defeat, goes back in time to kill Albert Einstein and prevent his assistance to the allies, paving the way for Soviet domination in the present. However, as an unintended consequence, a third world power, the Empire of the Rising Sun, is created and all three sides go to war. The three factions are playable, with the gameplay involving constructing buildings and factories, gathering resources and training armies to defeat other players. Each faction has a fully co-operative campaign, playable with either an artificial intelligence partner or with another player online. The game intersperses strategy missions with full motion video footage featuring an ensemble cast starring J. K. Simmons, Tim Curry and George Takei as the leaders of the three factions.

The game received mostly positive reviews, with reviewers citing the co-operative and multiplayer components as strengths, along with the enhanced role of naval combat compared to other real-time strategy games. Commonly cited weaknesses included aspects such as unit pathfinding and an unstable netcode.

Wisden Trophy

winner of the Test cricket series played between England and the West Indies. It was first awarded in 1963 to commemorate the hundredth edition of Wisden

The Wisden Trophy was awarded to the winner of the Test cricket series played between England and the West Indies. It was first awarded in 1963 to commemorate the hundredth edition of Wisden Cricketers' Almanack. Series were played in accordance with the future tours programme, with varying lengths of time between tours. If a series was drawn then the country holding the Wisden Trophy retained it. In 2020, it was announced that the trophy would be replaced by the Richards–Botham Trophy named after Sir Vivian Richards and Sir Ian Botham.

The trophy is named after the famous cricketing publisher Wisden and was presented by John Wisden & Co after gaining the approval of the Marylebone Cricket Club (MCC) and the West Indies Cricket Board (WICB). The Wisden Trophy was presented to the victorious team as a symbol of its victory, but then returned to the MCC Museum at Lord's. Starting with the 2000 Wisden Trophy series, the Malcolm Marshall Memorial Trophy was awarded to the leading wicket taker in the series.

England won the 2020 series, the final series in which the trophy was at stake, and thus retain it in perpetuity. England held the trophy for nine years, after beating the West Indies 3–1 in 2000, regaining it for the first time since 1969; they successfully defended the trophy three times. West Indies regained the trophy in the 2009 series in the West Indies, winning 1–0. It was originally planned to consist of four Test matches. However an extra match was arranged when the second Test had to be abandoned after only a few overs of play because the ground was unfit. England regained the trophy in May 2009, winning a two Test series 2–0. The tour, coming uncommonly soon after England toured the West Indies, replaced the previously announced tour by Sri Lanka, which in turn was arranged to replace the originally scheduled tour by Zimbabwe. England held the trophy up to and including the 2017 series in England. The West Indies won the 2019 series 2–1 on home soil.

Minecraft

known as Cave Game, and now known as the Java Edition—on 10, 11 or 12 May 2009, and ended on 13 May, when Persson released a test video on YouTube of

Minecraft is a sandbox game developed and published by Mojang Studios. Formally released on 18 November 2011 for personal computers following its initial public alpha release on 17 May 2009, it has been ported to numerous platforms, including mobile devices and various video game consoles.

In Minecraft, players explore a procedurally generated, three-dimensional world with virtually infinite terrain made up of voxels. Players can discover and extract raw materials, craft tools and items, and build structures, earthworks, and machines. Depending on the game mode, players can fight hostile mobs, as well as cooperate with or compete against other players in multiplayer. The game's large community offers a wide variety of user-generated content, such as modifications, servers, player skins, texture packs, and custom maps, which add new game mechanics and possibilities.

Originally created in 2009 by Markus "Notch" Persson using the Java programming language, Jens "Jeb" Bergensten was handed control over the game's continuing development following its full release in 2011. In 2014, Mojang and the Minecraft intellectual property were purchased by Microsoft for US\$2.5 billion; Xbox Game Studios hold the publishing rights for the Bedrock Edition, the cross-platform version based on the mobile Pocket Edition which replaced the existing console versions in 2017. Bedrock is updated concurrently with Mojang's original Java Edition, although with numerous, generally small, differences.

Minecraft is the best-selling video game of all time, with over 350 million copies sold (as of 2025) and 140 million monthly active players (as of 2021). It has received critical acclaim, winning several awards and being cited as one of the greatest video games of all time; social media, parodies, adaptations, merchandise, and the annual Minecon conventions have played prominent roles in popularizing the game. The game's speedrunning scene has attracted a significant following. Minecraft has been used in educational environments to teach chemistry, computer-aided design, and computer science. The wider Minecraft franchise includes several spin-off games, such as Minecraft: Story Mode, Minecraft Earth, Minecraft Dungeons, and Minecraft Legends. A live-action film adaptation, titled A Minecraft Movie, was released in 2025, and became the second highest-grossing video game film of all time.

Dartmouth BASIC

of BASIC had been to be interactive. The Third Edition, released in 1966 and the first to use the "edition" naming, was the first designed specifically

Dartmouth BASIC is the original version of the BASIC programming language. It was designed by two professors at Dartmouth College, John G. Kemeny and Thomas E. Kurtz. With the underlying Dartmouth Time-Sharing System (DTSS), it offered an interactive programming environment to all undergraduates as well as the larger university community.

Several versions were produced at Dartmouth, implemented by undergraduate students and operating as a compile and go system. The first version ran on 1 May 1964, and it was opened to general users in June. Upgrades followed, culminating in the seventh and final release in 1979. Dartmouth also introduced a dramatically updated version known as Structured BASIC (or SBASIC) in 1975, which added various structured programming concepts. SBASIC formed the basis of the American National Standards Institute-standard Standard BASIC efforts in the early 1980s.

Most dialects of BASIC trace their history to the Fourth Edition (which added, e.g., string variables, which most BASIC users take for granted, though the original could print strings), but generally leave out more esoteric features like matrix math. In contrast to the Dartmouth compilers, most other BASICs were written as interpreters. This decision allowed them to run in the limited main memory of early microcomputers.

Microsoft BASIC is one example, designed to run in only 4 KB of memory. By the late 1980s, tens of millions of home computers were running some variant of the MS interpreter. It became the de facto standard for BASIC, which led to the abandonment of the ANSI SBASIC efforts. Kemeny and Kurtz later formed a company to develop and promote a version of SBASIC known as True BASIC.

Many early mainframe games trace their history to Dartmouth BASIC and the DTSS system. A selection of these were collected, in HP Time-Shared BASIC versions, in the People's Computer Company book *What to Do After You Hit Return*. Many of the original source listings in *BASIC Computer Games* and related works also trace their history to Dartmouth BASIC.

Cheteshwar Pujara

played a key role in India's second inning of second Test scoring a crucial 92 in Bangalore, and helped the team win the game. In the third Test, played

Cheteshwar Arvind Pujara (born 25 January 1988) is a former Indian cricketer who represented the Indian national team for over thirteen years. Pujara played for Saurashtra in Indian domestic cricket and for Sussex Cricket club in English County Championship. A specialist in first-class cricket throughout his career, Pujara was known for his disciplined and patient batting style which made him an integral part of the Indian Test team for over a decade. He played in over 100 Test matches for India. His excellent batting was one of the main reasons of India winning their first-ever test series in Australia in 2018-19 tour.

Pujara made his first-class debut for Saurashtra in December 2005 and made his Test debut at Bangalore in October 2010. He also played 5 ODI matches for India.

He was a part of the India A team which toured England in the 2010 summer and was the highest scorer of the tour. In October 2011, the BCCI awarded him a D grade national contract. Known to have a sound technique and the temperament required to play long innings, he was one of the contenders for a spot in the Indian middle order after the retirement of Rahul Dravid and VVS Laxman. and was a part of the IPL 2021 winning team Chennai Super Kings.

His Test comeback came against New Zealand in August 2012, scoring a century. He made his first double hundred against England at Ahmedabad in November 2012 and followed up with another double hundred against Australia in March 2013, both the times steering India to victory and becoming man of the match.

In the 2012 NKP Salve Challenger Trophy, he was the highest scorer with two centuries and one half-century. He became one of the fastest batsmen to reach 1000 runs in Test cricket in just 11 matches and his 18th Test Innings. He won the Emerging Cricketer of the Year 2013.

In February 2017, during the one-off Test match against Bangladesh, he set a new record for the most runs by a batsman in an Indian first-class season, with 1,605 runs. The previous record was 1,604 runs set by Chandu Borde in 1964–65. In November 2017, he scored his twelfth double-century in first-class cricket, the most by an Indian batsman, breaking the previous record set by Vijay Merchant.

He was awarded a Grade B contract by the BCCI in March 2022. However, following a string of poor performances Pujara was dropped from the Indian National Team after a poor showing at the World Test Championship Final in 2023.

In June 2025 Pujara joined the BBC Test Match Special commentary team as a colour commentator/analyst for the first test of the series between England and India at Headingley.

Cheteshwar Pujara announced his retirement from all forms of cricket on 24 August 2025.

Gears of War: Ultimate Edition

Gears of War: Ultimate Edition is a 2015 third-person shooter video game. It is a remastered edition of the 2006 video game Gears of War, the first installment

Gears of War: Ultimate Edition is a 2015 third-person shooter video game. It is a remastered edition of the 2006 video game Gears of War, the first installment of the Gears of War series, originally developed by Epic Games. Developed by The Coalition and published by Xbox Game Studios, Ultimate Edition is based on the original game's source code; The Coalition's goal for the project was to accurately preserve the original gameplay experience while updating its visual presentation for a contemporary console generation. Ultimate Edition was released for the Xbox One in August 2015 and for Windows in March 2016. An enhanced port based on Ultimate Edition, Gears of War: Reloaded, was released in August 2025 for PlayStation 5, Windows and Xbox Series X/S, marking the series' debut on non-Xbox consoles.

Reviews for the console version of Ultimate Edition by video game publications were predominantly positive, whereas the PC version was less positively received due to its technical issues. Praise was directed towards the improved graphics, sound, and the minimal deviations from the original gameplay experience, while criticism focused on AI issues and the dated design of campaign levels.
