When Leaves Fall

This book is a must-read for anyone experiencing traumatic abuse. This book entitled When Leaves Fall addresses the chilling reality of lives that have been traumatized by viscous acts that have resulted in physical and emotional pain. It is an aid to those victims who can no longer cover up, camouflage, and are ready to come out of hiding to confess and confront their emptiness. In writing this book, the author swings the pendulum in one direction to remediate the darkness, pain, and loneliness experienced by those who have been victimized, and then he swings in the other direction to reveal the frustration of villains who have come to a place in life where they must confront the evil and darkness inside of them that have forced them to hurt others. The author embarks on his journey to help at the strategic place where the victim and villain awaken to the reality of their pain and must find help. The book characterizes and compares this place to the autumn season, when leaves naturally fall from trees and leave them barren and exposed to the elements. The author goes a long way to provide awareness to sufferers that they are not alone and there is help for them. The author takes three deep dives into the scriptures to search out and bring to the surface hidden pearls of spiritual truths of deliverance; second, to introduce the hurting to the Lord Jesus Christ, the strong deliverer; and finally, to bring to the surface an analysis of the lives of select biblical patriarchs to show how those sufferers obtained divine deliverance from the same source available to sufferers today. Throughout the book, the author combines his personal work and experiences with scriptural truths to bring in one volume a step-by-step path to total deliverance. The writing of this book does not stop at deliverance, healing, and freedom but provides guidance into a new beginning for the delivered and unveils the power of God that awaits them to enter the new season ahead of them.

The Fall of Autumn Leaves

Cameron Walkes is a Barbadian-born novelist who hasn't sold anything for nearly a year when he is encouraged to write an autobiography. A reluctant Cameron knows he is facing many obstacles. What lessons could he teach? How could he explain the recurrent dreams that had gradually increased his stress? Despite his trepidation, Cameron writes the first words of his autobiography later that night. As his life story

laboriously begins to take shape, Cameron traces his development from a poor fishing village in Barbados, through athletic and teaching careers, and finally to attain a role as president of an American college. While chronicling his pursuit of the American Dream, Cameron also details why he left academia to take up writing as a profession, and shares a glimpse into his mindset as his physical prowess declines, leaving him with no choice but to face his own mortality. But just as life comes full circle, fate intervenes and provides an unexpected ending to Cameron's story. Autumn's Dancing Leaves

Eddie didn't favor anyone in his family. Fair, blonde, and green-eyed, he stood in sharp contrast to the other darker-complected, dark-haired, blue-eyed members. The difference created a rift in the family fabric and his mother singled him out for abuse, irrationally holding him responsible for the family's turmoil. Little Eddie struggled with the severity of his maltreatment but, by age eleven, could no longer handle the circumstances of his life. He decided his only escape would be to die, that by conscious will, he could simply resolve to give up life and cease to exist. Eddie's mind, alerted to his decision, and believing the ultimate goal for any entity was to continue, regardless of form or quality of life, was determined to survive. Panicked at the threat of cessation, his mind made a desperate decision -- it fractured his personality and created Randy from traits

that had been repressed in Eddie. Randy, a tough, defiant individual, was created to bring new energy, new life, and stand in defense of the defeated, accepting Eddie. Rising to the challenge, he accepted the responsibility of his creation and was fiercely focused to protecting Eddie while endeavoring to create new circumstances for the life they shared. Randy was proud of his efforts to save Eddie. He knew he was Eddie's paladin, his champion, created for a noble purpose -- to bring Eddie back from the brink of oblivion. After many struggles, Randy's efforts appeared to be successful and the mind considered the possibility of enjoying the existence he'd insured. It pondered the idea of Eddie being involved with the world, rather than merely persisting through the time allotted for the life. Aware of Eddie's inability to interact with the world around him, the mind again fractured the personality creating Jesse, a new facet, an aesthetic personality, focused to tender feelings of love and friendship -- and aspects which determine quality of life. Jesse felt he was created to experience emotions and appreciate beauty, to evolve the repressed side of the personality, to bring stability to the entity. He believed he was born to search for love, to find the emotional equilibrium that would bring the separate identities into harmony. Developed from suppressed characteristics, Jesse was creative and confident, loving and inquisitive, charming and fun loving. And he was on a quest -- determined to achieve his goal. Without Eddie's awareness of them, Randy and Jesse sought to balance their existence and hoped they were achieving what they saw as a normal life until Jesse experienced an incident which shattered that belief and forced them to realize they had not progressed as far as they thought. Jesse's realization that he had made a terrible mistake was devastating. Jumping to a conclusion, Randy, the controlling personality, in his determination to fend off any challenges to them, felt he must take over to handle the crisis in an effort to protect them...

The Art of Science

Through a study of argument, science, art, and human intelligence, Louis Groarke explores and builds on a line of Aristotelian thought that traces the origins of logic and knowledge to a mental creativity that is able to leap to insightful and truthful conclusions on the basis of restricted evidence. In an Aristotelian Account of Induction Groarke discusses the intellectual process through which we access the "first principles" of human thought - the most basic concepts, The laws of logic, The universal claims of science and metaphysics, And The deepest moral truths. Following Aristotle and others, Groarke situates the first stirrings of human understanding in a creative capacity for discernment that precedes knowledge, even logic. Relying on a new historical study of philosophical theories of inductive reasoning from Aristotle To The twenty-first century, Groarke explains how Aristotle offers a viable solution To The so-called problem of induction, while offering new contributions to contemporary accounts of reasoning and argument and challenging the conventional wisdom about induction. In recovering and developing philosophical ideas that have been largely overlooked or misrepresented by more recent sources, An Aristotelian Account of Induction makes a major contribution To The historical study of philosophy and to critical debate.
