"I did not." or "I didn't go."

Echo & the Bunnymen are an English rock band formed in Liverpool in 1978. The original line-up consisted of vocalist Ian McCulloch, guitarist Will Sergeant and bassist Les Pattinson. By 1980, Pete de Freitas joined as the band's drummer.

Their 1980 debut album *Crocodiles* went into the top 20 of the UK Albums Chart. After releasing their second album *Heaven Up Here* in 1981, the band's cult status was followed by mainstream success in the UK in 1983 when they scored a UK Top 10 hit with "The Cutter", and the album which the song came from, *Porcupine*, hit number 2 in the UK. *Ocean Rain* (1984), continued the band's UK chart success with its lead single "The Killing Moon" entering into the top 10.

After they released a self-titled album in 1987, McCulloch left the band and was replaced by singer Noel Burke. In 1989, de Freitas was killed in a motorcycle accident. After working together as *Electrafixion*, McCulloch and Sergeant regrouped with Pattinson in 1997 and returned as Echo & the Bunnymen, before Pattinson's departure in 1998. The band have toured and released several albums since the late 1990s to varying degrees of success. In more recent years the band have headlined the Rockaway Beach Festival twice.

Are You Experienced is the debut studio album by the Jimi Hendrix Experience, released in May 1967. The album was an immediate critical and commercial success, and is widely regarded as one of the greatest albums of all time. It features Jimi Hendrix's innovative approach to songwriting and electric guitar playing, which soon established a new direction in psychedelic and rock music as a whole.

After struggling to earn a living on the R&B circuit as a backing guitarist, Hendrix signed a management and production contract in 1966 with former Animals bassist Chas Chandler and ex-Animals manager Michael Jeffery. Chandler brought Hendrix to London and recruited members for the Jimi Hendrix Experience, a band designed to showcase the guitarist's talents. In late October, after having been rejected by Decca Records, the Experience signed with Track, a new label formed by the Who's managers Kit Lambert and Chris Stamp. *Are You Experienced* and its preceding singles were recorded over a five-month period from late October 1966 through early April 1967. The album was completed in 16 recording sessions at three London locations: De Lane Lea Studios, CBS Studios, and Olympic Studios.

Released in the UK on May 12, 1967, *Are You Experienced* spent 33 weeks on the British charts, peaking at number two. The album was issued in the US on August 23 by Reprise Records, where it reached number five on the US Billboard Top LPs chart, remaining on the chart for 106 weeks, 76 of those in the Top 40. The album also spent 70 weeks on the US Billboard Hot R&B LPs chart, where it peaked at number 10. The US

version contained some of Hendrix's best known songs, including the Experience's first three singles, which, though omitted from the British edition of the LP, were top ten hits in the UK: "Purple Haze", "Hey Joe", and "The Wind Cries Mary". Hendrix was unhappy with the cover artwork for the UK edition, and solicited photographer Karl Ferris to create a more "psychedelic" cover for the US release.

In the decades since its release, *Are You Experienced* has continued to receive acclaim. It was voted number 63 in Colin Larkin's *All Time Top 1000 Albums* in 2000. *Rolling Stone* ranked *Are You Experienced* 30th on its 2020 list of the "500 Greatest Albums of All Time". In 2010, the magazine placed four songs from the US version of the album on their list of the "500 Greatest Songs of All Time": "Purple Haze" (17), "Foxy Lady" (153), "Hey Joe" (201), and "The Wind Cries Mary" (379). In 2005, the album was one of 50 recordings chosen by the Library of Congress to be added to the National Recording Registry for being "culturally, historically, or aesthetically significant". Writer and archivist Reuben Jackson of the Smithsonian Institution wrote: "it's still a landmark recording because it is of the rock, R&B, blues ... musical tradition. It altered the syntax of the music ... in a way I compare to James Joyce's *Ulysses*."

In the context of news media and social media, an echo chamber is an environment or ecosystem in which participants encounter beliefs that amplify or reinforce their preexisting beliefs by communication and repetition inside a closed system and insulated from rebuttal. The echo chambers function by circulating existing views without encountering opposing views, potentially leading to three cognitive biases: correlation neglect, selection bias and confirmation bias. Echo chambers may increase social and political polarization and extremism. On social media, it is thought that echo chambers limit exposure to diverse perspectives, and favor and reinforce presupposed narratives and ideologies.

The term is a metaphor based on an acoustic echo chamber, in which sounds reverberate in a hollow enclosure. Another emerging term for this echoing and homogenizing effect within social-media communities on the Internet is neotribalism.

Many scholars note the effects that echo chambers can have on citizens' stances and viewpoints, and specifically implications has for politics. However, some studies have suggested that the effects of echo chambers are weaker than often assumed.
