Summer Pockets is a Japanese visual novel developed by Key, a brand of Visual Arts. It was released on June 29, 2018 for Windows and is rated for all ages. Summer Pockets is Key's 13th game, following its previous games such as Kanon, Air, and Clannad. An expanded version of the game titled Summer Pockets Reflection Blue was released on June 26, 2020 in Japan. Both the original game and Reflection Blue have been ported to iOS and Android devices, and Nintendo Switch. Reflection Blue has also additionally been ported to the PlayStation 4. An English version of the original game for Windows was released by Visual Arts in 2020. The story is set on a fictional island on the Seto Inland Sea and follows the life of Hairi Takahara, a young man who uses the recent death of his grandmother as an excuse to escape to the island after an unpleasant incident. Once there, he gets to know the townsfolk of Torishirojima and multiple girls who are the focus of the story.

The gameplay in Summer Pockets follows an interactive branching plot line with multiple scenarios, and focuses on the player character gaining the favor of the four female main characters; this is expanded to seven in Reflection Blue. The game's concept is by Jun Maeda, but he did not write the scenario due to similarities in themes with Air, which he primarily wrote. Although Air also features a rural, seaside setting during the summer, the development team aimed for Summer Pockets to have a different feeling to it. Nostalgia and the maternal bond are prominent themes in the game. An anime television series adaptation produced by Feel premiered in April 2025.

Deep pocket is an American slang term; it usually means "extensive financial wealth or resources". It is typically used in reference to big companies or organizations (e.g. the American tobacco companies have "deep pockets"), although it can be used in reference to wealthy individuals (e.g., Bill Gates, Warren Buffett).

In the context of a lawsuit, the deep pocket is often the target defendant, even when the true (moral) culpability is with another party because the deep pocket has money to pay a verdict. For example, a lawyer may comment that they sued the manufacturer of a product rather than the seller because the manufacturer has the deep pockets, meaning it has more money than the seller with which to compensate the victim and profit the attorney.

Pool is a series of cue sports played on a billiard table. The table has six pockets along the rails, into which balls are shot. Of the many different pool games, the most popular include: eight-ball, blackball, nine-ball, ten-ball, seven-ball, straight pool, one-pocket, and bank pool. Eight-ball is the most frequently played discipline of pool, and it is often thought of as synonymous with "pool".

The generic term pocket billiards is sometimes also used, and favored by some pool-industry bodies, but is technically a broader classification, including games such as snooker, Russian pyramid, and kaisa, which are not referred to as pool games. There are also hybrid games combining aspects of both pool and carom billiards, such as American four-ball billiards, bottle pool, cowboy pool, and English billiards.
