= Evidence in Racial Inequality in the US Education System =

== Introduction ==

Nearly seven decades after *Brown v. Board*, racial inequality still permeates educational structures in the United States, as made apparent by the persistence of an achievement gap between African American students and their caucasian peers. This chapter aims to understand why, despite the fact that education is often perceived as the ground for breaking down social inequalities , it appears instead to perpetuate them. By looking at the evidence used in Sociology, Psychology and Economics to explain racial inequalities, this chapter strives to present a holistic understanding of the issue.

== Socio-economics ==

Socioeconomics, a sub-discipline of Economics, studies the relationship between economic activity...

Vehicle Identification Numbers (VIN codes)/World Manufacturer Identifier (WMI)

LS7 JMC Heavy Duty Truck Co., Ltd. LS8 Henan Shaolin Auto Co., Ltd. (bus) LTA ZX Auto LTN Soueast-built Chrysler & Dodge vehicles LTP National Electric -

== World Manufacturer Identifier ==

The first three characters uniquely identify the manufacturer of the vehicle using the World Manufacturer Identifier or WMI code. A manufacturer that builds fewer than 1000 vehicles per year uses a 9 as the third digit and the 12th, 13th and 14th position of the VIN for a second part of the identification. Some manufacturers use the third character as a code for a vehicle category (e.g., bus or truck), a division within a manufacturer, or both. For example, within 1G (assigned to General Motors in the United States), 1G1 represents Chevrolet passenger cars; 1G2, Pontiac passenger cars; and 1GC, Chevrolet trucks.

=== WMI Regions ===

The first character of the WMI is the region in which the manufacturer is located. In practice, each is assigned to a country of...

Vehicle Identification Numbers (VIN codes)/GM/VIN Codes

Fuel Management. Aluminum Block & Heads. 10-15 Camaro SS (auto. trans.) J LTA 4.2 L V8 Twin Turbo DI DOHC, 32 valve Cadillac Blackwing V8. VVT. 19-20

It is the tenth digit that gives you the model year for GM. I've been working at a Chevy dealer for years running codes/vins. For example (my examples only apply to 2001-2015 gm vehicles)

Remember 10th digit from the beginning, (left to right).

2001... 1,

2002...2,

2003...3,

etc.,

2009...9.

After 2009, the tenth digit was given a letter

2010... A,

2011...B,

2012...C,

2013...D,

2014...E,

2015...F,

Etc...

We have another 20 years worth of letters.

Thanks for reading.

You can always check your model year by looking in your drivers side door jamb and it will give you model year. If it was assembled in July or later, the model year is probably a year later than the calendar year of the manufacturing date listed.
