Need for Speed: Most Wanted is a 2005 racing video game, and the ninth installment in the Need for Speed series following Underground 2. Developed and published by Electronic Arts (EA), it was released in November 2005 for GameCube, PlayStation 2, Windows, Xbox, and Xbox 360 alongside two distinct versions for Nintendo DS and Game Boy Advance. Another version for PlayStation Portable titled Need for Speed: Most Wanted 5-1-0, was released at the same time and featured alternative gameplay.

Most Wanted focuses on street racing-oriented gameplay involving a selection of events and racing circuits found within the fictional city of Rockport. The game's main story involving players taking on the role of a street racer who must compete against 15 of the city's most elite street racers to become the "most wanted" racer of the group. In the process, they will seek revenge against one of the groups who took their car, and develop a feud with the city's police department. The game brought in many notable improvements and additions over other entries in the series, its major highlight being more in-depth police pursuits. Certain editions of the game were packaged with the ability for online multiplayer gaming.

Upon its release, the game received acclaim from critics and became a commercial success, selling over 18 million copies worldwide, becoming the best selling game in the series. Its success led to a Collector's Edition, known as the Black Edition, which provided additional content. A PS2 Classics version was available for PlayStation 3 via the PlayStation Store in May 2012, until it was discontinued the following year. The game was succeeded by Need for Speed: Carbon in 2006, which continues Most Wanted's story. A reboot by the same name, developed by Criterion Games, was released in October 2012.

Sir Cliff Richard (born Harry Rodger Webb; 14 October 1940) is a British singer and actor. He has total sales of over 21.5 million singles in the United Kingdom and, as of 2012, was the third-top-selling artist in UK Singles Chart history, behind the Beatles and Elvis Presley.

Richard was originally marketed as a rebellious rock and roll singer in the style of Presley and Little Richard. With his backing group, the Shadows, he dominated the British popular music scene in the pre-Beatles period of the late 1950s to early 1960s. His 1958 hit single "Move It" is often described as Britain's first authentic rock and roll song. In the early 1960s, he had a successful screen career with films including Espresso Bongo, The Young Ones, Summer Holiday and Wonderful Life and his own television show at the BBC. Increased focus on his Christian faith and subsequent softening of his music led to a more middle-of-the-road image, and he sometimes ventured into contemporary Christian music.

In a career spanning over 65 years, Richard has amassed several gold and platinum discs and awards, including two Ivor Novello Awards and three Brit Awards. More than 130 of his singles, albums, and EPs have reached the UK Top 20, more than any other artist. Richard has had 67 UK top ten singles, the second highest total for an artist (behind Presley). He holds the record, with Presley, as the only act to make the UK singles charts in all of its first six decades (1950s–2000s). He has achieved 14 UK No. 1 singles, and is the only singer to have had a No. 1 single in the UK in each of five consecutive decades. He also had four UK Christmas No. 1 singles, two of which were as a solo artist; "Mistletoe and Wine" and "Saviour's Day".

By the late-1990s, Richard had sold more than 250 million records worldwide, making him one of the best-selling music artists of all time. He has never achieved the same popularity in the United States despite eight

US Top 40 singles, including the million-selling "Devil Woman" and "We Don't Talk Anymore". In Canada, he had a successful period in the early 1960s, the late 1970s and early 1980s, with some releases certified gold and platinum. He has remained a popular music, film, and television personality at home in the UK as well as Australia, New Zealand, South Africa, Northern Europe and Asia, and retains a following in other countries. When not touring, he divides his time between Barbados and Portugal. In 2019, he relocated to New York.

The Ford Mustang (S550) is the sixth generation of the Ford Mustang, a pony car produced from 2014 until it was replaced by the seventh generation in 2023.

The development of the Mustang began in 2009 under the direction of the chief engineer Dave Pericak and exterior design director Joel Piaskowski. In 2010, design management selected an exterior design theme proposal by Kemal Curi?. After four years of development, Ford debuted the Mustang at numerous online media events in December 2013, preceding its public unveiling at the Detroit Auto Show in January 2014. Official manufacture of the sixth generation of the Mustang began at the facility in Flat Rock, Michigan, in August 2014. The car was available as both a coupe and a convertible.

Introduced for the 2015 model year to replace the fifth generation, the Mustang offered multiple engine configurations, including a 3.7-liter V6 engine, a 2.3-liter inline-four engine, and a 5.0-liter V8 engine for the V6 (discontinued in 2017), EcoBoost, and GT models, respectively. The sixth generation marked the first Mustang to be marketed globally, introducing factory-produced right-hand-drive models alongside the traditional left-hand-drive versions. This was part of the "One Ford" business strategy, which also encompassed models such as the Fiesta, Focus, Fusion/Mondeo, Escape/Kuga, Edge, Transit Connect, and Transit.

Ford released several special editions of the sixth-generation Mustang, including the Shelby GT350 and GT500, the Bullitt edition to commemorate the 50th anniversary of the 1968 film Bullitt, and a model celebrating the Mustang's own 50th anniversary. The car is the recipient of numerous accolades, including Esquire's Car of the Year in 2014, a spot on Car and Driver's 10Best list in 2015 and 2017, and the EyesOn Design award for Best Production Vehicle in 2014. The sixth generation of the Mustang was discontinued in April 2023, with its successor, the S650, beginning production in May.
