

Daily Calendar

Diff (blog)/Calendar

users to create and edit events Multiple views of events

weekly, daily, calendar Filter by location or tag, and searchable Allow for tickets (paid or - The Wikimedia movement of volunteers, organizers, and affiliates carry out numerous events throughout the year. These events, both in-person and virtual, regional and global, are a focal point for creating and maintaining a thriving movement. Events are where we gather to learn, to share, and to make connections across geography, interests, organizations, cultures, and languages.

Finding out about events happening around the world and in local communities is a process with multiple solutions, none of which attempt to be a central, all-encompassing, resource regardless of interest, project, or geography.

We want to provide a place to pull together as many events for the Wikimedia movement as possible through a calendar on Diff. This calendar is open to any volunteer or staff to add events, milestones, opportunities, and occasions of celebration. It would make choosing what to attend simple and be searchable by project, topic, langue or date. At it's core, it would amplify and promote any events of interest to our movement.

We're using The Events Calendar Pro to solve this need. You can find the calendar at <https://diff.wikimedia.org/calendar> and can login to add events with your Wikimedia account.

This calendar creates a Wikimedia project-and-language-agnostic resource available to all corners of the movement. Contributing to the calendar will be a light process; login, create an event, share. By aggregating calendars across our projects, our movement can get a clear, consistent view into the various activities happening at any given time.

The Wikimedians of Colorado User Group (WM-US-CO) is a Wikimedia user group in the U.S. State of Colorado. As a formerly official affiliate of the Wikimedia movement, we host local and online meetups, promote Wikipedia at local universities, colleges, museums, and libraries, and use our mailing list to help Wikimedians communicate.
