Stuckism () is an international art movement founded in 1999 by Billy Childish and Charles Thomson to promote figurative painting as opposed to conceptual art. By May 2017, the initial group of 13 British artists had expanded to 236 groups in 52 countries.

Childish and Thomson have issued several manifestos. The first one was The Stuckists, consisting of 20 points starting with "Stuckism is a quest for authenticity". Remodernism, the other well-known manifesto of the movement, opposes the deconstruction and irony of postmodernism in favor of what Stuckists refer to as the "spirituality" of the artist. In another manifesto they define themselves as anti-anti-art which is against anti-art and for what they consider conventional art.

After exhibiting in small galleries in Shoreditch, London, the Stuckists' first show in a major public museum was held in 2004 at the Walker Art Gallery, as part of the Liverpool Biennial. The group has demonstrated annually at Tate Britain against the Turner Prize since 2000, sometimes dressed in clown costumes. They have also come out in opposition to the Charles Saatchi-patronised Young British Artists.

Although painting is the dominant artistic form of Stuckism, artists using other media such as photography, sculpture, film and collage have also joined, and share the Stuckist opposition to conceptualism and "ego-art."

The Stuck River in Washington state is a former small stream turned tributary and later final course of the White River, near Auburn to the Puyallup River at Sumner. The river's name comes from the Lushootseed

word /sték/, "log jam", or /st?x?/, "gouged through", or "plowed through".

Throughout the late 19th century, farmers in the valley attempted various flood control efforts that eventually allowed the White River to partially flow into the Stuck River in 1899. In 1906, a great flood diverted the White River's entire flow into the Stuck River. The entire length of the former Stuck is now considered the final reach of the White River, though the Stuck River name still appears on many maps, in local place names, and in legal descriptions of property near the river.
