Leon Gary Plauché (ploh-SHAY; November 10, 1945 – October 20, 2014) was an American man known for publicly killing Jeffrey Doucet (DOO-set; February 3, 1959 – March 17, 1984), a child molester who had kidnapped and raped Plauché's son, Joseph Boyce "Jody" Plauché (born April 27, 1972). Plauché shot Doucet on March 16, 1984 as he was being escorted through Baton Rouge Metropolitan Airport by law enforcement to face trial for what he had done to Plauché's son, an event that was captured on camera by a local news crew. Plauché was given a seven-year suspended sentence with five years' probation and 300 more hours of community service, receiving no prison time. The case received wide publicity because some people questioned whether or not Plauché should have been charged with murder. When he was questioned as to why he shot Doucet, Plauché contended that he was in the right for killing Doucet for abusing his son and that any parent in a similar position would have taken the same action stating "if somebody did it to your kid, you'd do it too."

Wikipedia is a free online encyclopedia written and maintained by a community of volunteers, known as Wikipedians, through open collaboration and the wiki software MediaWiki. Founded by Jimmy Wales and Larry Sanger in 2001, Wikipedia has been hosted since 2003 by the Wikimedia Foundation, an American nonprofit organization funded mainly by donations from readers. Wikipedia is the largest and most-read reference work in history.

Initially available only in English, Wikipedia exists in over 340 languages and is the world's ninth most visited website. The English Wikipedia, with over 7 million articles, remains the largest of the editions, which together comprise more than 65 million articles and attract more than 1.5 billion unique device visits and 13 million edits per month (about 5 edits per second on average) as of April 2024. As of May 2025, over 25% of Wikipedia's traffic comes from the United States, while Japan, the United Kingdom, Germany and Russia each account for around 5%.

Wikipedia has been praised for enabling the democratization of knowledge, its extensive coverage, unique structure, and culture. Wikipedia has been censored by some national governments, ranging from specific pages to the entire site. Although Wikipedia's volunteer editors have written extensively on a wide variety of topics, the encyclopedia has been criticized for systemic bias, such as a gender bias against women and a geographical bias against the Global South. While the reliability of Wikipedia was frequently criticized in the

2000s, it has improved over time, receiving greater praise from the late 2010s onward. Articles on breaking news are often accessed as sources for up-to-date information about those events.

13 Reasons Why (also stylized as THIRTEEN R3ASONS WHY) is an American teen drama television series based on the 2007 novel Thirteen Reasons Why by author Jay Asher. Developed for Netflix by Brian Yorkey and with Selena Gomez serving as an executive producer, the series stars Dylan Minnette and Katherine Langford alongside an ensemble cast. The series follows the students of the fictional Liberty High School and the wide range of social issues affecting modern youth.

The show originally revolved around Clay Jensen (Minnette) and the aftermath of the suicide of fellow student Hannah Baker (Langford). Before her death, she leaves behind a box of cassette tapes in which she details the reasons why she chose to kill herself as well as the people she believes are responsible for her death.

The first season was released on Netflix on March 31, 2017. It became the second most watched series on Netflix at the time of its release. Netflix renewed 13 Reasons Why for a second season due to the success of the initial 13 episodes; the second season was released on May 18, 2018. A third season was released on August 23, 2019; that same month, the series was renewed for a fourth and final season, which was released on June 5, 2020.

13 Reasons Why received mixed reviews. The first season received positive reviews from critics and audiences, who praised its themes, emotional weight, subject matter, character development and acting, particularly the performances of Minnette and Langford. However, it prompted concerns from mental health professionals due to its graphic depiction of issues such as suicide, sexual assault, and bullying, along with other mature content.

The later three seasons received negative critical response. Coinciding with the release of the second season, Netflix released a video with the cast that cautioned viewers about some of the topics covered in the show and provided a support website with crisis numbers for people affected by depression, anxiety and other mental health issues. For her performance, Langford received a Golden Globe Award nomination for Best Actress – Television Series Drama.

I Know What You Did Last Summer is a 2025 American slasher film directed by Jennifer Kaytin Robinson, who co-wrote the screenplay with Sam Lansky from a story by Leah McKendrick and Robinson. It is the fourth installment in the I Know What You Did Last Summer franchise and a sequel to I Still Know What You Did Last Summer (1998). The film stars Madelyn Cline, Chase Sui Wonders, Jonah Hauer-King, Tyriq Withers, Sarah Pidgeon, Billy Campbell, Gabbriette Bechtel, and Austin Nichols, with Freddie Prinze Jr., and Jennifer Love Hewitt reprising their roles as Ray Bronson and Julie James from the first two films. The plot takes place 27 years after the Tower Bay murders in the second film, when another hook-wielding killer appears and begins targeting a group of friends one year after they covered up a car crash in which they killed someone.

Plans for a fourth film in the franchise started in 2014, when Mike Flanagan and Jeff Howard signed on to write a reboot with no connection to the previous installments. However, this version ultimately fell through.

Following the cancellation of the 2021 television series adaptation, the project was relaunched when Robinson pitched her version to Sony Pictures. The film was put into early development in February 2023, with producer Neal H. Moritz returning. Prinze Jr. and Hewitt were confirmed to be returning in 2024, with the new cast members joining throughout the year. Filming took place between October 2024 and March 2025 in Sydney and Los Angeles.

I Know What You Did Last Summer premiered at the United Theater on Broadway in Los Angeles on July 14, 2025, and was theatrically released by Sony Pictures Releasing in the United States on July 18. The film received mixed reviews from critics and has grossed \$64 million worldwide.

You Make It Feel Like Christmas is the fourth studio album by American singer-songwriter Gwen Stefani. The album, which is Stefani's first full-length Christmas-themed album, was released on October 6, 2017, by

Interscope Records. The record was executively produced by Stefani and Busbee, with additional production coming from Eric Valentine. The standard version of *You Make It Feel Like Christmas* contains twelve songs, featuring six original songs penned by Stefani, Busbee and Justin Tranter, and six cover versions of Christmas standards. While going on a nature walk near the Oklahoma ranch house belonging to boyfriend Blake Shelton, Stefani felt inspired to record a Christmas album and began writing what would later become "Christmas Eve". Recording sessions took place in the summer months of 2017; several of the tracks' titles leaked in August, leaving Stefani to confirm the project in September. The album's original songs make references to Stefani's newfound love and relationship with Shelton.

The album was preceded by the release of lead single "You Make It Feel Like Christmas", a duet with Shelton. It became a modest success on international record charts, becoming Stefani's first entry as a solo artist in years in several territories. A music video for the song was released in 2018. In Italy, Stefani's cover of "Santa Baby" and the original song "Secret Santa" were selected as singles and distributed to mainstream radio stations. Elsewhere, "Santa Baby" was released as a promotional single for the album. To promote *You Make It Feel Like Christmas*, Stefani performed on numerous television programs, such as *Today*, *The Tonight Show Starring Jimmy Fallon*, and *The Ellen DeGeneres Show*. She also filmed an accompanying television special, *Gwen Stefani's You Make It Feel Like Christmas*, which premiered on NBC on December 12, 2017. A deluxe edition of the album was distributed in October 2018 and features two previously unreleased songs and three new covers, including a duet of "Feliz Navidad" with Chilean singer Mon Laferte. Another reissue occurred in 2020 with two new songs, "Sleigh Ride" and the original single "Here This Christmas".

You Make It Feel Like Christmas garnered a mostly positive reception from music critics. Stefani was praised for creating a classical Christmas record as opposed to a modern one. However, some critics disliked the original songs for not sounding festive. Commercially, the album did not replicate the success of Stefani's three previous albums. It reached number 16 on the *Billboard* 200 albums chart in the United States and had first week album-equivalent units of 10,000 copies. Elsewhere, the album charted in Canada, the Czech Republic, Greece, the Netherlands, Scotland, South Korea, and the United Kingdom. All seventeen songs on the standard and deluxe editions of the record entered *Billboard*'s Holiday Digital Song Sales component chart in the United States.

The Golden Rule is the principle of treating others as one would want to be treated by them. It is sometimes called an ethics of reciprocity, meaning that one should reciprocate to others how one would like them to treat the person (not necessarily how they actually treat them). Various expressions of this rule can be found in the tenets of most religions and creeds through the ages.

The maxim may appear as a positive or negative injunction governing conduct:

Treat others as one would like others to treat them (positive or directive form)

Do not treat others in ways that one would not like to be treated (negative or prohibitive form)

What one wishes upon others, they wish upon themselves (empathetic or responsive form)

The Dark Knight is a 2008 superhero film directed by Christopher Nolan, from a screenplay co-written with his brother Jonathan. Based on the DC Comics superhero Batman, it is the sequel to Batman Begins (2005), and the second installment in The Dark Knight trilogy. The plot follows the vigilante Batman, police lieutenant James Gordon, and district attorney Harvey Dent, who form an alliance to dismantle organized crime in Gotham City. Their efforts are derailed by the Joker, an anarchistic mastermind who seeks to test how far Batman will go to save the city from chaos. The ensemble cast includes Christian Bale, Michael Caine, Heath Ledger, Gary Oldman, Aaron Eckhart, Maggie Gyllenhaal, and Morgan Freeman.

Warner Bros. Pictures prioritized a sequel following the successful reinvention of the Batman film series with Batman Begins. Christopher and Batman Begins co-writer David S. Goyer developed the story elements, making Dent the central protagonist caught up in the battle between Batman and the Joker. In writing the screenplay, the Nolans were influenced by 1980s Batman comics and crime drama films, and sought to continue Batman Begins' heightened sense of realism. From April to November 2007, filming took place with a \$185 million budget in Chicago and Hong Kong, and on sets in England. The Dark Knight was the first major motion picture to be filmed with high-resolution IMAX cameras. Christopher avoided using computer-generated imagery unless necessary, insisting on practical stunts such as flipping an 18-wheel truck and blowing up a factory.

The Dark Knight was marketed with an innovative interactive viral campaign that initially focused on countering criticism of Ledger's casting by those who believed he was a poor choice to portray the Joker. Ledger died from an accidental prescription drug overdose in January 2008, leading to widespread interest from the press and public regarding his performance. When it was released in July, The Dark Knight received acclaim for its mature tone and themes, visual style, and performances—particularly that of Ledger, who received many posthumous awards including Academy, BAFTA, and Golden Globe awards for Best Supporting Actor, making The Dark Knight the first comic-book film to receive major industry awards. It broke several box-office records and became the highest-grossing 2008 film, the fourth-highest-grossing film to that time, and the highest-grossing superhero film.

Since its release, The Dark Knight has been assessed as one of the greatest superhero films ever, one of the best movies of the 2000s, and one of the best films ever made. It is considered the "blueprint" for many modern superhero films, particularly for its rejection of a typical comic-book movie style in favor of a crime film that features comic-book characters. Many filmmakers sought to repeat its success by emulating its gritty, realistic tone to varying degrees of success. The Dark Knight has been analyzed for its themes of terrorism and the limitations of morality and ethics. The United States Library of Congress selected it for preservation in the National Film Registry in 2020. A sequel, The Dark Knight Rises, concluded The Dark Knight trilogy in 2012.
