Alice's Adventures in Wonderland

Alice's Adventures in Wonderland (also known as Alice in Wonderland) is an 1865 English children's novel by Lewis Carroll, a mathematics don at the University

Alice's Adventures in Wonderland (also known as Alice in Wonderland) is an 1865 English children's novel by Lewis Carroll, a mathematics don at the University of Oxford. It details the story of a girl named Alice who falls through a rabbit hole into a fantasy world of anthropomorphic creatures. It is seen as an example of the literary nonsense genre. The artist John Tenniel provided 42 wood-engraved illustrations for the book.

It received positive reviews upon release and is now one of the best-known works of Victorian literature; its narrative, structure, characters and imagery have had a widespread influence on popular culture and literature, especially in the fantasy genre. It is credited as helping end an era of didacticism in children's literature, inaugurating an era in which writing for children aimed to "delight or entertain". The tale plays with logic, giving the story lasting popularity with adults as well as with children. The titular character Alice shares her name with Alice Liddell, a girl Carroll knew—scholars disagree about the extent to which the character was based upon her.

The book has never been out of print and has been translated into 174 languages. Its legacy includes adaptations to screen, radio, visual art, ballet, opera, and musical theatre, as well as theme parks, board games and video games. Carroll published a sequel in 1871 entitled *Through the Looking-Glass* and a shortened version for young children, *The Nursery "Alice"*, in 1890.

Alice in Wonderland (2010 film)

Alice In Wonderland is a 2010 American Gothic dark fantasy adventure film directed by Tim Burton from a screenplay written by Linda Woolverton and produced

Alice In Wonderland is a 2010 American Gothic dark fantasy adventure film directed by Tim Burton from a screenplay written by Linda Woolverton and produced by Walt Disney Pictures. The film stars Johnny Depp, Anne Hathaway, Matt Lucas, Helena Bonham Carter, Crispin Glover, and Mia Wasikowska in the title role, and features the voices of Alan Rickman, Stephen Fry, Michael Sheen, and Timothy Spall. A live-action adaptation and re-imagining of Lewis Carroll's works, the film follows Alice Kingsleigh, a nineteen-year-old who accidentally falls down a rabbit hole, returns to Wonderland, and alongside the Mad Hatter helps restore the White Queen to her throne by fighting against the Red Queen and her Jabberwocky, a dragon that threatens Wonderland's residents.

Alice in Wonderland began development in December 2007, when Burton was asked to direct two 3D films for Disney, including the remake of *Frankenweenie*. Production began in September 2008 and concluded within three months, and was shot in the United Kingdom and the United States. It was followed by an extensive post-production and visual effects process where filming included live-action and motion-capture sequences. Burton's frequent collaborator Danny Elfman composed an original theme for the film, which premiered in London at the Odeon Leicester Square on February 25, 2010, and was released in the United

Kingdom and the United States through the Disney Digital 3D, RealD 3D, and IMAX 3D formats as well as in conventional theaters on March 5.

The film generated over \$1.025 billion in ticket sales and became the fifth highest-grossing film during its theatrical run, and it is also the second-highest-grossing film of 2010. Amongst Disney's live-action adaptations, the film is tied for third-most-expensive, alongside *Mulan*, and fourth-highest-grossing readaptation to date. It received three nominations at the 68th Golden Globe Awards, including Best Motion Picture – Musical or Comedy. At the 83rd Academy Awards, it won Best Art Direction and Best Costume Design, and was also nominated for Best Visual Effects, while the film received numerous other accolades.

Although it was met with mixed reviews upon its release, the movie has gone through a certain re-evaluation with many deeming it to be one of Disney's best live-action movies. While not the first such film in its genre, *Alice in Wonderland* is credited with starting a trend of live-action fairy tale and fantasy films being green-lit, particularly from Walt Disney Studios. A follow-up film, titled *Alice Through the Looking Glass*, was released on May 27, 2016.

Canada's Wonderland

Canada's Wonderland, formerly known as Paramount Canada's Wonderland, is a 330-acre (130 ha) amusement park located in Vaughan, Ontario, a municipality

Canada's Wonderland, formerly known as Paramount Canada's Wonderland, is a 330-acre (130 ha) amusement park located in Vaughan, Ontario, a municipality within the Greater Toronto Area. Opened in 1981 by the Taft Broadcasting Company and the Great-West Life Assurance Company, it was the first major theme park in Canada and remains the country's largest. Cedar Fair (merged with Six Flags since 1 July 2024) purchased the park from Paramount Parks in 2006, and they have owned and operated the park since then. In 2019, it was the most-visited seasonal amusement park in North America with an estimated 3.9 million guests. The park still retains this record, with an estimated 3.8 million guests in 2022 amid the COVID-19 pandemic.

Canada's Wonderland normally operates from late April or early May to Labour Day, and then on select dates until early January. Special events are held throughout the season, including Halloween Haunt, WinterFest, and various festivals such as Celebration Canada, a month-long Canada Day festival.

With eighteen roller coasters as of 2025, Canada's Wonderland has the third most of any amusement park around the world, behind Energylandia in Poland and Six Flags Magic Mountain in Valencia, California with nineteen each. Twenty acres (8.1 ha) of the park houses a water park named Splash Works. Canada's Wonderland had 20 roller coasters throughout its history with SkyRider being removed and relocated at the end of the 2014 season and Time Warp demolished at the end of the 2024 season.

Since the closure of Crystal Beach Park in Fort Erie in 1989, Canada's Wonderland remains the only amusement park in Ontario with wooden roller coasters in operation. Since the closure of Mighty Flyer in Exhibition Place in Toronto in 1992, Canada's Wonderland is the only location in Ontario with wooden roller coasters in operation. Since the closure of all rides in Marineland of Canada in Niagara Falls in 2024, Canada's Wonderland remains the only amusement park in Ontario with roller coasters with inversions in operation.

Alice in Wonderland is a 1951 American animated musical fantasy comedy film produced by Walt Disney Productions and released by RKO Radio Pictures. It is based on Lewis Carroll's 1865 novel *Alice's Adventures in Wonderland* and its 1871 sequel *Through the Looking-Glass*. The production was supervised by Ben Sharpsteen, and was directed by Clyde Geronimi, Wilfred Jackson, and Hamilton Luske. With the voices of Ed Wynn, Richard Haydn, Sterling Holloway, Jerry Colonna and Kathryn Beaumont in her film debut, the film follows a young girl, Alice, who falls down a rabbit hole and enters a nonsensical world, Wonderland, which is ruled by the Queen of Hearts, while encountering strange creatures, including the Mad Hatter and the Cheshire Cat.

Walt Disney was supposed to make his first film Alice which was supposed to star Mary Pickford as Alice, but he chose not to do the film and instead did *Snow White and the Seven Dwarfs* (1937). However, the idea was eventually revived in the 1940s, following the success of *Snow White*. The film was originally intended to be a live-action/animated film, but Disney decided it would be a fully animated feature film. During its production, many sequences adapted from Carroll's books were later omitted, such as Jabberwocky, the White Knight, the Duchess, Mock Turtle and the Gryphon.

Alice in Wonderland premiered at the Leicester Square Theatre in London on July 26, 1951, and was released in New York City on July 28. The film was also shown on television as one of the first episodes of Disneyland. It was initially considered a box-office bomb, grossing \$2.4 million domestically and received generally negative reviews from critics. However, its 1974 re-release in theaters proved to be much more successful, leading to subsequent re-releases, merchandising and home video releases; it has been more positively reviewed over the years, being regarded as one of Disney's best animated films today.

Alice in Wonderland syndrome

Alice in Wonderland Syndrome (AIWS), also known as Todd's Syndrome or Dysmetropsia, is a neurological disorder that distorts perception. People with this

Alice in Wonderland Syndrome (AIWS), also known as Todd's Syndrome or Dysmetropsia, is a neurological disorder that distorts perception. People with this syndrome may experience distortions in their visual perception of objects, such as appearing smaller (micropsia) or larger (macropsia), or appearing to be closer (pelopsia) or farther (teleopsia) than they are. Distortion may also occur for senses other than vision.

The cause of Alice in Wonderland Syndrome is currently not known, but it has often been associated with migraines, head trauma, or viral encephalitis caused by Epstein–Barr Virus Infection. It is also theorized that AIWS can be caused by abnormal amounts of electrical activity, resulting in abnormal blood flow in the parts of the brain that process visual perception and texture.

Alice in Wonderland Syndrome is also possible to be experienced temporarily under the use of certain psychoactive drugs.

Although there are cases of Alice in Wonderland Syndrome in both adolescents and adults, it is most commonly seen in children.
