

# Who Were The Beatles

List of songs recorded by the Beatles

*The Beatles were an English rock band from Liverpool who recorded hundreds of songs during their career. The group's "main catalogue"—songs released between*

The Beatles were an English rock band from Liverpool who recorded hundreds of songs during their career. The group's "main catalogue"—songs released between 1962 and 1970—consists of 213 songs (four of which exist in different versions): 188 originals and 25 covers. Since their break-up, over 100 more songs by the group have been officially released, including live songs the group never recorded in the studio and numerous outtakes. The band also recorded several songs that remain unreleased. Often considered the most influential band of the rock era, the group's music pioneered new recording techniques and was primarily responsible for pop music's evolution into an art form. The majority of their recordings were produced by George Martin, who also played and composed string arrangements on multiple songs; his influence on the group led him to be referred to as the "Fifth Beatle". Between 1962 and 1968, the Beatles released their songs in both mono and stereo versions; *Abbey Road* and *Let It Be* were mixed and released only in stereo. Their songs often featured differences between the mixes and the group put the most effort into making the mono mixes. All mono mixes were remastered and released on *The Beatles in Mono* box set in 2009, along with the remastering of the band's entire catalogue in stereo.

Following their signing with EMI in 1962, each member of the Beatles contributed to songwriting. Their primary songwriters were the partnership of John Lennon and Paul McCartney, who composed most of the group's songs; lead guitarist George Harrison wrote 22 songs, including "While My Guitar Gently Weeps", "Something" and "Here Comes the Sun", while drummer Ringo Starr wrote two songs ("Don't Pass Me By" and "Octopus's Garden"), and was credited as co-writer for four others. While songs written by Lennon or McCartney were always credited to "Lennon–McCartney", the pair wrote many songs completely separately. These include "Come Together", "Strawberry Fields Forever" and "Nowhere Man" (Lennon) and "Hey Jude", "Let It Be" and "Yesterday" (McCartney), the last of which is one of the most covered songs of all time. Artists the band covered while together included Chuck Berry ("Roll Over Beethoven", "Rock and Roll Music"), Carl Perkins ("Matchbox", "Honey Don't"), Larry Williams ("Slow Down", "Dizzy Miss Lizzy") and Little Richard ("Long Tall Sally"). Cover songs were included on five of the band's core albums: *Please Please Me* and *With the Beatles* (both 1963), *Beatles for Sale* (1964), *Help!* (1965) and *Let It Be* (1970). Lead vocals were also shared by the group, with Starr usually contributing vocals to one song per album. The group were known for their harmonies, mostly two-part, but sang intricate three-part harmonies on "This Boy", "Yes It Is" and "Because".

Originally rooted in skiffle and 1950s rock and roll music, the group embraced pop music in their early years ("She Loves You", "I Want to Hold Your Hand"), but began to branch out into different genres, including folk rock (*Help!*, *Rubber Soul*), country ("Act Naturally", "Don't Pass Me By") and psychedelia (*Sgt. Pepper's Lonely Hearts Club Band*, *Magical Mystery Tour*). Their 1968 self-titled album (also known as the "White Album") in particular featured a wide range of styles, including ska ("Ob-La-Di, Ob-La-Da"), blues ("Yer Blues"), hard rock ("Helter Skelter" and the single version of "Revolution"), and a musique concrète sound collage ("Revolution 9"). The group also composed numerous ballads, including "Michelle" and "The Long and Winding Road". During their career, the Beatles introduced more innovations into popular music than any other rock band of the 20th century. Some of these include one of the first uses of guitar feedback in music ("I Feel Fine"), the first use of a fade-in in a pop song ("Eight Days a Week"), use of tape loops ("Tomorrow Never Knows"), using the recording studio as an instrument (*Revolver* and *Sgt. Pepper*) and popularising the Indian sitar in pop music ("Norwegian Wood"); Harrison further embraced Indian music on songs such as "Love You To", "Within You Without You" and "The Inner Light". *Abbey Road* (1969)

featured prominent use of the Moog synthesiser and the Leslie speaker, along with a medley of song fragments edited together to form a single piece.

Along with their main catalogue, over 100 previously unreleased songs have been released on numerous live albums, compilations, and deluxe editions. These include demos, outtakes, songs the group only recorded live and not in the studio and, for The Beatles Anthology in the 1990s, two reunion songs: "Free as a Bird" and "Real Love". A final reunion song, "Now and Then", was released in 2023. The Beatles remain one of the most acclaimed and influential artists in popular music history. Their songs have been covered thousands of times by a wide range of artists and continue to be celebrated around the world.

## The Beatles (album)

*The Beatles, commonly referred to as the White Album, is the ninth studio album and only double album by the English rock band the Beatles, released on*

The Beatles, commonly referred to as the White Album, is the ninth studio album and only double album by the English rock band the Beatles, released on 22 November 1968. Featuring a plain white sleeve, the cover contains no graphics or text other than the band's name embossed. This was intended as a direct contrast to the vivid cover artwork of the band's previous LP, Sgt. Pepper's Lonely Hearts Club Band (1967). The Beatles is recognized for its fragmentary style and diverse range of genres, including folk, country rock, British blues, ska, music hall, hard rock, psychedelia and avant-garde. It has since been viewed by some critics as a postmodern work, and is retrospectively widely regarded as one of the greatest albums of all time. The album was the band's first LP release on their then-recently founded Apple Records after previous albums were released on Parlophone in the United Kingdom and Capitol Records in the United States.

In late May 1968, the Beatles returned to EMI Studios in London to commence recording sessions that lasted until mid-October. During these sessions, arguments frequently broke out among the foursome over creative differences and the presence of John Lennon's new partner, Yoko Ono, which subverted the Beatles' policy of excluding wives and girlfriends from the studio. After a series of problems, including producer George Martin taking an unannounced holiday and engineer Geoff Emerick suddenly quitting during a session, Ringo Starr left the band for two weeks in August. The same tensions continued throughout the following year and led to the band's break-up.

The album features 30 songs, 19 of which were written during March and April 1968 at a Transcendental Meditation course in Rishikesh, India. There, the only Western instrument available to the band was the acoustic guitar; several of these songs remained acoustic on The Beatles and were recorded solo, or only by part of the group. The production aesthetic ensured that the album's sound was scaled down and less reliant on studio innovation than most of their releases since Revolver (1966). The Beatles also broke with the band's tradition at the time of incorporating several musical styles in one song by keeping each piece of music consistently faithful to a select genre.

The Beatles received favourable reviews from most music critics; detractors found its satirical songs unimportant and apolitical amid the turbulent political and social climate of 1968. It topped record charts in Britain and the United States. No singles were issued in either territory, but "Hey Jude" and "Revolution" originated from the same recording sessions and were issued as a single in August 1968. The album has since been certified 24× platinum by the Recording Industry Association of America (RIAA), tied for fifth all time. A remixed and expanded edition of the album was released in 2018 to commemorate its 50th anniversary.

## The Beatles

*The Beatles were an English rock band formed in Liverpool in 1960. The core lineup of the band comprised John Lennon, Paul McCartney, George Harrison*

The Beatles were an English rock band formed in Liverpool in 1960. The core lineup of the band comprised John Lennon, Paul McCartney, George Harrison and Ringo Starr. They are widely regarded as the most influential band in Western popular music and were integral to the development of 1960s counterculture and the recognition of popular music as an art form. Rooted in skiffle, beat and 1950s rock 'n' roll, their sound incorporated elements of classical music and traditional pop in innovative ways. The band also explored music styles ranging from folk and Indian music to psychedelia and hard rock. As pioneers in recording, songwriting and artistic presentation, the Beatles revolutionised many aspects of the music industry and were often publicised as leaders of the era's youth and sociocultural movements.

Led by primary songwriters Lennon and McCartney, the Beatles evolved from Lennon's previous group, the Quarrymen, and built their reputation by playing clubs in Liverpool and Hamburg, Germany, starting in 1960, initially with Stuart Sutcliffe playing bass. The core trio of Lennon, McCartney and Harrison, together since 1958, went through a succession of drummers, including Pete Best, before inviting Starr to join them in 1962. Manager Brian Epstein moulded them into a professional act, and producer George Martin developed their recordings, greatly expanding their domestic success after they signed with EMI and achieved their first hit, "Love Me Do", in late 1962. As their popularity grew into the intense fan frenzy dubbed "Beatlemania", the band acquired the nickname "the Fab Four". Epstein, Martin or other members of the band's entourage were sometimes informally referred to as a "fifth Beatle".

By early 1964, the Beatles were international stars and had achieved unprecedented levels of critical and commercial success. They became a leading force in Britain's cultural resurgence, ushering in the British Invasion of the United States pop market. They soon made their film debut with *A Hard Day's Night* (1964). A growing desire to refine their studio efforts, coupled with the challenging nature of their concert tours, led to the band's retirement from live performances in 1966. During this time, they produced albums of greater sophistication, including *Rubber Soul* (1965), *Revolver* (1966) and *Sgt. Pepper's Lonely Hearts Club Band* (1967). They enjoyed further commercial success with *The Beatles* (also known as "the White Album", 1968) and *Abbey Road* (1969). The success of these records heralded the album era, increased public interest in psychedelic drugs and Eastern spirituality, and furthered advancements in electronic music, album art and music videos. In 1968, they founded Apple Corps, a multi-armed multimedia corporation that continues to oversee projects related to the band's legacy. After the group's break-up in 1970, all principal former members enjoyed success as solo artists. While some partial reunions occurred over the next decade, the four members never reunited. Lennon was murdered in 1980, and Harrison died of lung cancer in 2001. McCartney and Starr remain musically active.

The Beatles are the best-selling music act of all time, with estimated sales of 600 million units worldwide. They are the most successful act in the history of the US Billboard charts, with the most number-one hits on the U.S. Billboard Hot 100 chart (20), and they hold the record for most number-one albums on the UK Albums Chart (15) and most singles sold in the UK (21.9 million). The band received many accolades, including eight Grammy Awards, four Brit Awards, an Academy Award (for Best Original Song Score for the 1970 documentary film *Let It Be*) and fifteen Ivor Novello Awards. They were inducted into the Rock and Roll Hall of Fame in their first year of eligibility, 1988, and each principal member was individually inducted between 1994 and 2015. In 2004 and 2011, the group topped Rolling Stone's lists of the greatest artists in history. Time magazine named them among the 20th century's 100 most important people.

With the Beatles

*With the Beatles* is the second studio album by the English rock band the Beatles. It was released in the United Kingdom on 22 November 1963 on Parlophone

*With the Beatles* is the second studio album by the English rock band the Beatles. It was released in the United Kingdom on 22 November 1963 on Parlophone, eight months after the release of the band's debut album, *Please Please Me*. Produced by George Martin, the album features eight original compositions (seven by Lennon–McCartney and "Don't Bother Me", George Harrison's first recorded solo composition) and six

covers (mostly of rock and roll and Motown R&B hits). The sessions also yielded the non-album single, "I Want to Hold Your Hand" backed by "This Boy". The cover photograph was taken by the fashion photographer Robert Freeman and has since been mimicked by several music groups. A different cover was used for the Australian release of the album, which the Beatles were displeased with.

In the United States, the album's tracks were unevenly split over the group's first two albums released on Capitol Records: *Meet the Beatles!* and *The Beatles' Second Album*. It was also released in Canada under the name *Beatlemania! With the Beatles*. The album was ranked number 420 on Rolling Stone magazine's list of the 500 Greatest Albums of All Time in 2003, and was included in Robert Dimery's 1001 Albums You Must Hear Before You Die (2010). It was also voted number 275 in the third edition of English writer Colin Larkin's All Time Top 1000 Albums (2000).

## Fifth Beatle

*The fifth Beatle is an informal title that has been applied to people who were at one point a member of the Beatles or who had a strong association with*

The fifth Beatle is an informal title that has been applied to people who were at one point a member of the Beatles or who had a strong association with John Lennon, Paul McCartney, George Harrison, and Ringo Starr. The term originated in 1964 with the American disc jockey Murray the K, who pronounced himself the "fifth Beatle" due to the amount of promotion and coverage he afforded the band on his radio program. In the 2024 film *Beatles '64*, directed by David Tedeschi and produced by Martin Scorsese, Harrison is seen questioning Murray the K's original proximity to the group.

The band's members have offered their own views as to who should be described with the title. McCartney said in a 1997 interview that "if anyone was the fifth Beatle", it was manager Brian Epstein, and later applied the honorific to producer George Martin in a 2016 memorial post. Harrison said at the Beatles' 1988 induction into the Rock and Roll Hall of Fame that there were only two "fifth Beatles": Derek Taylor, the Beatles' public relations manager, and Neil Aspinall, their road manager-turned-business-executive. Others referred to as the "fifth Beatle" include their early drummer, Pete Best, original bassist Stuart Sutcliffe, and keyboardist Billy Preston.

## The Beatles' 1966 tour of Germany, Japan and the Philippines

*The English rock group the Beatles toured West Germany, Japan and the Philippines between 24 June and 4 July 1966. The thirteen concerts comprised the*

The English rock group the Beatles toured West Germany, Japan and the Philippines between 24 June and 4 July 1966. The thirteen concerts comprised the first stage of a world tour that ended with the band's final tour of the United States, in August 1966. The shows in West Germany represented a return to the country where the Beatles had developed as a group before achieving fame in 1963. The return flight from the Philippines to England included a stopover in Delhi, India. There, the Beatles indulged in two days of sightseeing and shopping for musical instruments while still under the attention of the press and local fans.

The concerts were well attended yet provided the band with little in the way of artistic fulfilment. The programme was in the package-tour format typical of the 1960s, with two shows per day, several support acts on the bill and the Beatles' set lasting around 30 minutes. The band's setlist included their new single, "Paperback Writer", but no songs from their recently completed album, *Revolver*. Often marked by poor playing, the shows highlighted the division between what the group could achieve when performing live as a four-piece with inadequate amplification and the more complex music they were able to create in the recording studio. Concerts at the Circus-Krone-Bau in Munich and the Nippon Budokan hall in Tokyo were filmed and broadcast on local television networks.

The tour signalled a change in the Beatlemania phenomenon, as harsh measures were used to restrain crowds for the first time and the band became a symbol of societal division between conservative and liberal thinking. The bookings at the Budokan, a venue reserved for martial arts, offended many traditionalists in Japan, resulting in death threats to the Beatles and a heightened police presence throughout their stay. In Manila, the band's nonattendance at a social engagement hosted by Imelda Marcos led to a hostile reaction from citizens loyal to the Marcos regime, government officials and army personnel. The Beatles and their entourage were manhandled while attempting to leave the country and forced to surrender much of the earnings from the group's two shows at the Rizal Memorial Stadium.

On their return to London, the Beatles were outspoken in their condemnation of the Philippines. As a result of the events in Manila, the band lost faith with their longtime manager Brian Epstein and made the decision to end their career as live performers that year. By contrast, the stay in Tokyo established an enduring bond between the Beatles and Japan, where each of the band members visited or performed in the decades following the group's break-up in April 1970.

List of cover versions of Beatles songs

*included; re-recordings of Beatles songs by the former Beatles; and songs which The Beatles covered are also not included. Non-Beatles songs credited to Lennon–McCartney*

This is a list of cover versions by music artists who have recorded one or more songs written and originally recorded by English rock band The Beatles. Many albums have been created in dedication to the group, including film soundtracks, such as *I Am Sam* (2001) and *Across the Universe* (2007) and commemorative albums such as *Sgt. Pepper Knew My Father* (1988) and *This Bird Has Flown* (2005).

Artists who have covered songs from the solo careers of the Beatles' members John Lennon, George Harrison, Paul McCartney and Ringo Starr are not included; re-recordings of Beatles songs by the former Beatles; and songs which The Beatles covered are also not included. Non-Beatles songs credited to Lennon–McCartney are also not included.

Revolver (Beatles album)

*Revolver is the seventh studio album by the English rock band the Beatles. It was released on 5 August 1966, accompanied by the double A-side single "Eleanor*

*Revolver is the seventh studio album by the English rock band the Beatles. It was released on 5 August 1966, accompanied by the double A-side single "Eleanor Rigby" / "Yellow Submarine". The album was the Beatles' final recording project before their retirement as live performers and marked the group's most overt use of studio technology to date, building on the advances of their late 1965 release Rubber Soul. It has since become regarded as one of the greatest and most innovative albums in the history of popular music, with recognition centred on its range of musical styles, diverse sounds and lyrical content.*

The Beatles recorded *Revolver* after taking a three-month break at the start of 1966, and during a period when London was feted as the era's cultural capital. Regarded by some commentators as the start of the group's psychedelic period, the songs reflect their interest in the drug LSD, Eastern philosophy and the avant-garde while addressing themes such as death and transcendence of material concerns. With no plans to reproduce their new material in concert, the band made liberal use of automatic double tracking, varispeed, reversed tapes, close audio miking, and instruments outside of their standard live set-up. Among its tracks are "Tomorrow Never Knows", incorporating heavy Indian drone and a collage of tape loops; "Eleanor Rigby", a song about loneliness featuring a string octet as its only musical backing; "Love You To", a foray into Hindustani classical music. The sessions also produced a non-album single, "Paperback Writer", backed with "Rain".

In the United Kingdom, the album's 14 tracks were gradually distributed to radio stations in the weeks before its release. In North America, Revolver was reduced to 11 songs by Capitol Records, with the omitted three appearing on the June 1966 LP Yesterday and Today. The release there coincided with the Beatles' final concert tour and the controversy surrounding John Lennon's remark that the band had become "more popular than Jesus". The album topped the Record Retailer chart in the UK for seven weeks and the US Billboard Top LPs list for six weeks. Critical reaction was highly favourable in the UK but less so in the US amid the press's unease at the band's outspokenness on contemporary issues.

Revolver expanded the boundaries of pop music, revolutionised standard practices in studio recording, advanced principles espoused by the 1960s counterculture, and inspired the development of psychedelic rock, electronica, progressive rock and world music. The album cover, designed by Klaus Voormann, combined Aubrey Beardsley-inspired line drawing with photo collage and won the 1967 Grammy Award for Best Album Cover, Graphic Arts. Aided by the 1987 international CD release, which standardised its content to the original Parlophone version, Revolver has surpassed Sgt. Pepper's Lonely Hearts Club Band (1967) in many critics' estimation as the Beatles' best album. It was ranked first in the 1998 and 2000 editions of Colin Larkin's book All Time Top 1000 Albums and third in the 2003 and 2012 editions of Rolling Stone magazine's list of the "500 Greatest Albums of All Time". It has been certified double platinum by the British Phonographic Industry (BPI) and 5× platinum by the Recording Industry Association of America (RIAA). A remixed and expanded edition of the album was released in 2022.

## The Beatles in film

*The Beatles were an English rock band formed in Liverpool in 1960. With a line-up comprising John Lennon, Paul McCartney, George Harrison and Ringo Starr*

The Beatles were an English rock band formed in Liverpool in 1960. With a line-up comprising John Lennon, Paul McCartney, George Harrison and Ringo Starr, they are commonly regarded as the most influential band of all time. Between 1964 and 1970, they appeared in five major motion pictures, beginning with A Hard Day's Night (1964) and ending with Let It Be (1970). From late 1965 to 1969, the group also appeared in several promotional films for their singles, which have been credited with anticipating music videos and the rise of MTV in the 1980s.

During the years of Beatlemania (ca.1963-1966), the Beatles appeared in two films, A Hard Day's Night (1964) and Help! (1965), both directed by American director Richard Lester. A Hard Day's Night was shot in black and white and featured the band as fictionalised versions of themselves during the height of Beatlemania, while Help! was shot in colour and saw the group struggle to record music while trying to protect Starr from a sinister cult and a pair of mad scientists, all of whom are obsessed with obtaining one of his rings. Following the recording of Sgt. Pepper's Lonely Hearts Club Band (1967), the Beatles produced and starred in their third major feature, Magical Mystery Tour (1967), a mostly unscripted television film which saw the group and friends on a British mystery tour. The band cameoed in the animated Yellow Submarine (1968), which featured cartoon versions of the band members and a soundtrack that included then-unreleased studio recordings. The band's final major film was Let It Be, which documented the group rehearsing and recording songs for the eponymous album.

Most of their films were very well-received, except Magical Mystery Tour which was panned by critics and the public alike. Each of their films had the same name as their associated soundtrack album and a song on that album. The individual Beatles also had their own film careers outside the band to varying degrees: Starr became a successful actor, Harrison became a successful producer with his production company HandMade Films, McCartney appeared in three films and Lennon had a co-starring role in How I Won the War (1967). The Beatles have also been the subject of numerous documentary films, have been portrayed onscreen in both film and television, and have inspired other films.

## Break-up of the Beatles

*The Beatles were an English rock band, active from 1960 until 1970. From 1962 onwards, the band's members were John Lennon, Paul McCartney, George Harrison*

The Beatles were an English rock band, active from 1960 until 1970. From 1962 onwards, the band's members were John Lennon, Paul McCartney, George Harrison and Ringo Starr. Their disbandment is attributed to numerous factors, including the strain of the Beatlemania phenomenon, the 1967 death of their manager Brian Epstein, bandmates' discontent of McCartney's leadership of the band, Lennon's heroin use and his relationship with Yoko Ono, Harrison's increasingly prolific songwriting, the floundering of Apple Corps, the Get Back project (renamed Let It Be in 1970), and managerial disputes.

During the latter half of the 1960s, each of the band's members began to assert individual artistic agendas. Their disunity became most evident on 1968's *The Beatles* (also known as "the White Album"), and quarrels and disharmony over musical matters soon permeated their business discussions. Starr left the group for two weeks during the White Album sessions, and Harrison quit for five days during the Get Back rehearsals. Starting in the autumn of 1968, the group quarrelled regarding who should handle their business affairs. McCartney lobbied for the entertainment lawyers Lee and John Eastman but was outvoted by his bandmates in favour of the businessman Allen Klein.

The final time that the four members recorded together was the session for Abbey Road's "The End" on 20 August 1969, a date which also saw further mixing and editing for "I Want You (She's So Heavy)"; their final meeting with all four present was two days later at a photo session held at Lennon's Tittenhurst estate. On 20 September, Lennon privately informed his bandmates at a meeting at Apple, without Harrison present, that he was leaving the Beatles, although it was unclear to the other members whether his departure was permanent. On 10 April 1970, McCartney said in a press release that he was no longer working with the group, which sparked a widespread media reaction and worsened the tensions between him and his bandmates. Legal disputes continued long after his announcement, and the dissolution was not formalised until 29 December 1974.

Rumours of a full-fledged reunion persisted throughout the 1970s, as the members occasionally reunited for collaboration, but never with all four simultaneously. Starr's "I'm the Greatest" (1973) and Harrison's "All Those Years Ago" (1981) are the only tracks that feature three ex-Beatles. Rumours also circulated that the 1976 debut album of Canadian rock band Klaatu, *3:47 EST*, was secretly a new release by the Beatles, due to the lack of writing credits and similar sound, though was debunked when the members publicly revealed their identities a year later. After Lennon's murder in 1980, the surviving members reunited for the Anthology project in 1994, using the unfinished Lennon demos "Free as a Bird", "Real Love" and "Now and Then" as the basis for new songs recorded and released as Beatles material, though the latter remained unreleased until 2023.
