At Swim, Two Boys (2001) is a novel by Irish writer Jamie O'Neill. The title is a punning allusion to Flann O'Brien's At Swim-Two-Birds. The book is written in a stream-of-consciousness style, which has led to favourable comparisons to James Joyce.

Ten years after publication, Alison Walsh, reviewing the year 2001 for the Sunday Independent, called it "a vintage one in Irish writing", specifically naming the "unforgettable" *At Swim, Two Boys* alongside books by Dermot Bolger, Eoin Colfer and Nuala O'Faolain. Terry Pender commented on *At Swim, Two Boys*: "With only this work O'Neill can take his rightful place among the great Irish writers beginning with Joyce and ending with Roddy Doyle".

The Homecoming Saga is a science fiction series by Orson Scott Card. The series is patterned on the Book of Mormon. Some of the names also come from the Book of Mormon.

The series, containing five volumes, takes place forty million years in the future, with volumes 1-3 taking place on a fictional planet called Harmony. The main premise of the series is that a human diaspora occurred after Earth was rendered uninhabitable by human wars. Forty plus planets, including Harmony, are colonized by humans (though only two are actually named in the series: Ramadan, settled by Arabs; and Harmony, apparently settled by Slavic cultures, as its languages all developed from Russian.)

On Harmony, the advancement of human technology is controlled by the Oversoul – an artificial intelligence monitor, using a small army of satellites, established by the original colonists to monitor the planet. It also influences the actions of humans. Though it does not prevent them from doing evil, it keeps their societal capability for destruction limited by suppressing any thoughts that might lead to things like long-distance travel or instant communication. Thus the technology on Harmony includes basic computers and solar-powered handheld energy weapons, but no cars or even wagons. The Oversoul, however, was only designed to last twenty million years, so eventually it begins to break down. It decides to send an expedition back to Earth to seek advice from the entity of which it is an imitation: the mysterious Keeper of Earth. Soon after, the people begin to receive dreams similar to those that the Oversoul sends that come directly from the Keeper of Earth via faster-than-light transmission.

As loosely inspired by the themes of the Book of Mormon, the first three books in the series deal with the main characters travails in journeying the site of the ships via a slow trek across Harmony. The fourth book, *Earthfall*, concerns itself with the journey of one of the ships back to Earth and the culture clash that results upon its homecoming, specifically, establishing a settlement and reconciling human culture with the existing creatures that have risen on Earth in the intervening millennia. The final volume, *Earthborn*, takes place five centuries further in the future; the one remaining member of the original expedition seeks to alter the path of the changing culture and see the Oversoul's mission finally fulfilled.

Quasar (Wendell Elvis Vaughn) is a fictional superhero appearing in American comic books published by Marvel Comics. He is one of Marvel's cosmic heroes, a character whose adventures frequently take him into outer space or other dimensions. However, Quasar deviates from the archetype of the noble, dauntless alien set by such Silver Age cosmic heroes as the Silver Surfer, Adam Warlock and Captain Marvel (Mar-Vell) in that he is an everyman. He starred in an eponymous monthly ongoing series written by Mark Gruenwald that ran for sixty issues beginning in 1989 and has served as a member of The Avengers.
