Cotton candy, also known as candy floss (candyfloss) and fairy floss, is a spun sugar confection that resembles cotton. It is made by heating and liquefying sugar, and spinning it centrifugally through minute holes, causing it to rapidly cool and re-solidify into fine strands. It usually contains small amounts of food flavoring and it naturally bears the color of the sugar it is made of which is often altered with food coloring.

It is often sold at fairs, circuses, carnivals, and festivals, served in a plastic bag, on a stick, or on a paper cone.

It is made and sold globally, as candy floss in the United Kingdom, Ireland, India, New Zealand, and South Africa, as fairy floss in Australia. Similar confections include the Korean kkul-tarae and the Iranian pashmak.
