Black Widow is a 2021 American superhero film based on Marvel Comics featuring the character of the same name. Produced by Marvel Studios and distributed by Walt Disney Studios Motion Pictures, it is the 24th film in the Marvel Cinematic Universe (MCU). The film was directed by Cate Shortland from a screenplay by Eric Pearson and stars Scarlett Johansson as Natasha Romanoff / Black Widow alongside Florence Pugh, David Harbour, O-T Fagbenle, Olga Kurylenko, William Hurt, Ray Winstone, and Rachel Weisz. Mostly set during the events of *Captain America: Civil War* (2016), the film sees Romanoff on the run and forced to confront her past as a Russian spy before she became an Avenger.

Lionsgate Films began developing a Black Widow film in April 2004, with David Hayter attached to write and direct. The project did not move forward and the character's film rights had reverted to Marvel Studios by June 2006. Johansson was cast in the role for several MCU films beginning with *Iron Man 2* (2010), and began discussing a solo film with Marvel. Work began in late 2017 and Shortland was hired in July 2018. Jac Schaeffer and Ned Benson contributed to the script before Pearson joined. The film was written to be a prequel that expands on Romanoff's history and helps end her MCU story following the character's death in *Avengers: Endgame* (2019). Shortland put an emphasis on the fight sequences and said this was the most violent MCU film so far. Filming took place from May to October 2019 in Norway, England, Budapest, Morocco, and Macon, Georgia.

Black Widow premiered at events around the world on June 29, 2021, and was released in the United States on July 9, simultaneously in theaters and through Disney+ with Premier Access. It is the first film in Phase Four of the MCU, and was delayed three times from an original May 2020 release date due to the COVID-19 pandemic. Black Widow broke several pandemic box office records and grossed over \$379 million worldwide. The film received positive reviews from critics, with particular praise for the action sequences and for the performances of Johansson and Pugh. In July 2021, Johansson filed a lawsuit against Disney over the simultaneous release, which was settled two months later.

Barbara Gordon

portrayed by Dina Meyer, Alicia Silverstone (as Barbara Wilson), and Jeté Laurence, and has been voiced by Melissa Gilbert, Tara Strong, Danielle Judovits

Barbara Joan Gordon is a superheroine appearing in American comic books published by DC Comics, commonly in association with the superhero Batman. The character was created by television producer William Dozier, editor Julius Schwartz, writer Gardner Fox, and artist Carmine Infantino. Dozier, the producer of the 1960s Batman television series, requested Schwartz to call for a new female counterpart to the superhero Batman that could be introduced into publication and the third season of the show simultaneously. The character subsequently made her first comic-book appearance as Batgirl in *Detective Comics* #359, titled "The Million Dollar Debut of Batgirl!" in January 1967, by Fox and Infantino, allowing her to be introduced into the television series, portrayed by actress Yvonne Craig, in the season 3 premiere "Enter Batgirl, Exit Penguin", in September that same year.

Barbara Gordon is the daughter of Gotham City police commissioner James Gordon, the sister of serial killer James Gordon Jr. and is initially employed as head of the Gotham City Public Library. Although the character appeared in various DC Comics publications, she was prominently featured in Batman Family which debuted in 1975, partnered with the original Robin, Dick Grayson, whom she has a history of working closely and being romantically involved with. In 1988, following the editorial retirement of the character's Batgirl persona in Batgirl Special #1, the graphic novel Batman: The Killing Joke depicts the Joker shooting her through the spinal cord in her civilian identity, resulting in paraplegia. In subsequent stories, the character was reestablished as a technical advisor, computer expert and information broker known as Oracle. Becoming a valuable asset providing intelligence and computer hacking services to assist other superheroes, she makes her first appearance as Oracle in Suicide Squad #23 (1989) and later became a featured lead of the Birds of Prey series. In 2011, as part of DC Comics The New 52 relaunch, Barbara recovered from her paralysis following a surgical procedure and returned as Batgirl. Barbara has since featured in the eponymous Batgirl monthly title as well as Birds of Prey and other Batman books. Following the events of Joker War, Barbara returned to her Oracle role while recovering from an injury, and continues to operate as both Batgirl and Oracle after the 2021 Infinite Frontier event.

The character was a popular comic book figure during the Silver Age of Comic Books, due to her appearances in the Batman television series and continued media exposure. She has achieved similar popularity in the Modern Age of Comic Books under the Birds of Prey publication and as a disabled icon. The character has been the subject of academic analysis concerning the roles of women, librarians, and disabled people in mainstream media. The events of The Killing Joke, which led to the character's paralysis, as well as the restoration of her mobility, have also been a subject of debate among comic book writers, artists, editors, and readership. Viewpoints range from sexism in comic books, to the limited visibility of disabled characters and the practicality of disabilities existing in a fictional universe where magic, technology, and medical science exceed the limitations of the real world.

As both Batgirl and Oracle, Barbara Gordon has been featured in various adaptations related to the Batman franchise, including television, film, animation, video games, and other merchandise. Aside from Craig, the character has been portrayed by Dina Meyer, Alicia Silverstone (as Barbara Wilson), and Jeté Laurence, and has been voiced by Melissa Gilbert, Tara Strong, Danielle Judovits, Alyson Stoner, Mae Whitman, Kimberly Brooks and Briana Cuoco among others. Barbara Gordon appeared in the third season of the HBO Max series Titans as the new commissioner of Gotham City portrayed by Savannah Welch. The character was slated for a solo film set in the DCEU, starring Leslie Grace in the title role and intended to be released on HBO Max. The film was canceled in August 2022. In 2011, Barbara Gordon ranked 17th in IGN's "Top 100 Comic Book Heroes".

Steele dossier

strong evidence of guilt; *The Washington Post*. Retrieved April 17, 2024. Smith, Allan (April 23, 2018). *Flight records obtained by Bloomberg shed new*

The Steele dossier, also known as the Trump–Russia dossier, is a controversial political opposition research report on the 2016 presidential campaign of Donald Trump compiled by counterintelligence specialist Christopher Steele. It was published without permission in 2017 as an unfinished 35-page compilation of "unverified, and potentially unverifiable" memos that were considered by Steele to be "raw intelligence – not established facts, but a starting point for further investigation". The dossier was written from June to December 2016 and contains allegations of misconduct, conspiracy, and cooperation between Trump's presidential campaign and the government of Russia prior to and during the 2016 election campaign. U.S. intelligence agencies have reported that Putin personally ordered the whole Russian election interference operation, that the Russians codenamed Project Lakhta.

While the dossier played a significant role in initially highlighting the general friendliness between Trump and the Putin administration, the corroboration status of specific allegations is highly variable. The following

allegations have been publicly corroborated by U.S. intelligence agencies, the January 2017 ODNI report, and the Mueller report: "that the Russian government was working to get Mr. Trump elected"; that Russia sought "to cultivate people in Trump's orbit"; that Trump campaign officials and associates had secretive contacts with Russian officials and agents; that Putin favored Trump over Hillary Clinton; that Putin personally ordered an "influence campaign" to harm Clinton's campaign and to "undermine public faith in the US democratic process"; and that he ordered cyberattacks on both parties. Some other allegations are plausible but not specifically confirmed, and some are dubious in retrospect but not strictly disproven.

The dossier was based on reports from initially anonymous sources known to Steele and his "primary sub-source", Igor Danchenko. Steele, a former head of the Russia Desk for British intelligence (MI6), wrote the report for the private investigative firm Fusion GPS, that was paid by Hillary Clinton's campaign and the Democratic National Committee (DNC). The dossier's 17 reports allege that there was a "well-developed conspiracy" of "cooperation" between Trump campaign members and Russian operatives to aid Russia's election interference efforts to benefit Trump. It also alleges that Russia sought to damage Hillary Clinton's candidacy. It was published by BuzzFeed News on January 10, 2017, without Steele's permission. Their decision to publish the reports without verifying the allegations was criticized by journalists. However, a judge defended BuzzFeed's action on the basis that the dossier was part of an official proceeding, and therefore "protected by fair reporting privilege".

The United States intelligence community and most experts have treated the dossier with caution due to its unverified allegations. While compiling the dossier, Steele passed his findings to both British and American intelligence services. The U.S. intelligence community took the allegations seriously, and the Federal Bureau of Investigation (FBI) investigated every line of the dossier and identified and spoke with at least two of Steele's sources. The Mueller report contained passing references to some of the dossier's allegations but little mention of its more sensational claims. Both the 2019 OIG report and the 2023 Durham report raised doubts about the dossier's reliability and sources, with the latter stating that "the FBI was not able to corroborate a single substantive allegation contained in the Steele Reports".

While the dossier played a central and essential role in the seeking of FISA warrants on Carter Page, it played no role in the January 6, 2017, intelligence community assessment of the Russian actions in the 2016 election, and it was not used to "support any of its analytic judgments". Also, it was not the trigger for the opening of the Russia investigation into whether the Trump campaign was coordinating with the Russian government's interference in the 2016 presidential election. The dossier is a factor in several conspiracy theories promoted by Trump and his supporters. Many mainstream sources have described the dossier as "discredited".

List of Supernatural and The Winchesters characters

Supernatural is an American television drama series created by writer and producer Eric Kripke. It was initially broadcast by The WB network from September 13, 2005, but after the first season, the WB and UPN networks merged to form The CW network, which was the final broadcaster for the show in the United States by the series' conclusion on November 19, 2020, with 327 episodes aired. The Winchesters, a spin-off prequel/sequel series to Supernatural developed by Robbie Thompson, Jensen Ackles and Danneel Ackles, aired on The CW for 13 episodes from October 11, 2022, to March 7, 2023.

Supernatural and The Winchesters each feature two main characters, Sam Winchester (played by Jared Padalecki) and Dean Winchester (played by Jensen Ackles), and Mary Campbell (played by Meg Donnelly) and John Winchester (played by Drake Rodger).

In *Supernatural*, the two Winchester brothers are hunters who travel across the United States, mainly to the Midwest, in a black 1967 Chevy Impala to hunt demons, werewolves, vampires, ghosts, witches, and other supernatural creatures. *Supernatural* chronicles the relationship between the brothers, their friends, and their father. Throughout the seasons, the brothers work to fight evil, keep each other alive, and avenge those they have lost. In *The Winchesters*, Dean Winchester narrates the story of how his parents John Winchester and Mary Campbell met, fell in love and fought monsters together while in search for their missing fathers.

Supernatural features many recurring guests that help Sam Winchester and Dean Winchester with their hunts and quests. Frequent returning characters include hunter Bobby Singer (who becomes a father figure to Sam and Dean after season two), Castiel (an angel), Crowley (a demon and the King of Hell), and Jack Kline (the Nephilim). The series also featured recurring appearances from other angels, demons, and hunters.

With the release of *Yentl* (1983), Streisand became the first woman to write, produce, direct, and star in a major studio film. The film won an Oscar for Best Original Score and a Golden Globe for Best Motion Picture Musical.
